General Note: The Status Section identifies changes to this Subtopic resulting from Accounting Standards Updates. The Section provides references to the affected Codification content and links to the related Accounting Standards Updates. Nonsubstantive changes for items such as editorial, link and similar corrections are included separately in Maintenance Updates.

General

965-10-00-1	The following table identifies the changes made to this Subtopic.			
	Paragraph	Action	Accounting Standards Update	Date
	Benefits	Amended	Accounting Standards Update No. 2016-19	12/14/2016
	Benefits (3rd def.)	Added	Accounting Standards Update No. 2014-06	03/14/2014
	Contributory Plan (2nd def.)	Added	Accounting Standards Update No. 2014-06	03/14/2014
	Defined Benefit Health and Welfare Plans	Superseded	Accounting Standards Update No. 2014-06	03/14/2014
	Defined Benefit Plan	Added	Accounting Standards Update No. 2014-06	03/14/2014
	Defined Contribution Health and Welfare Plans	Superseded	Accounting Standards Update No. 2014-06	03/14/2014
	Defined Contribution Plan	Added	Accounting Standards Update No. 2014-06	03/14/2014
	Noncontributory Plan	Added	Accounting Standards Update No. 2014-06	03/14/2014
	965-10-05-1	Amended	Accounting Standards Update No. 2014-06	03/14/2014
	965-10-05-4	Amended	Accounting Standards Update No. 2014-06	03/14/2014
	965-10-15-2	Amended	Accounting Standards Update No. 2014-06	03/14/2014

05 Overview and Background

i General Note: The Overview and Background Section provides overview and background material for the guidance contained in the Subtopic. It does not provide the historical background or due process. It may contain certain material that users generally consider useful to understand the typical situations addressed by the standards. The Section does not summarize the accounting and reporting requirements.

General

965-10-05-1 The Codification contains several Topics for benefit plan accounting due to the differing accounting treatments for various forms of employee benefit plans. The Topics include:

- a. Plan Accounting—Defined Benefit Pension Plans, Topic [960](#)
- b. Plan Accounting—Defined Contribution Pension Plans, Topic [962](#)
- c. Plan Accounting—Health and Welfare Benefit Plans, (this Topic).

Additionally, Topic [715](#) addresses financial accounting and reporting for an employer that offers pension, other postretirement, and certain special or contractual termination [benefits](#) to its employees.

965-10-05-2 The Plan Accounting—Health and Welfare Benefit Plans Topic includes the following Subtopics:

- a. Overall
- b. Net Assets Available for Plan Benefits
- c. Plan Benefit Obligations
- d. Terminating Plans
- e. Presentation of Financial Statements
- f. Receivables
- g. Investments—Debt and Equity Securities
- h. Investments—Other
- i. Property, Plant, and Equipment.

965-10-05-3 The Overall Subtopic provides scope-related guidance for this Topic and an overview of accounting and reporting for [health and welfare benefit plans](#).

> Characteristics of Plans

965-10-05-4 Plan participants may be active or terminated employees (including retirees), as well as covered dependents and beneficiaries, of a single employer or group of employers. Employer contributions may be voluntary or required under the terms of a collective bargaining agreement negotiated with one or more labor organizations. Plans may require contributions from employers and participants

([contributory plans](#)) or from employers only ([noncontributory plans](#)). During periods of unemployment, a noncontributory plan may require contributions by participants to maintain their eligibility for benefits. Benefits may be provided in any of the following manners:

- a. Through insurance contracts paid for by the plan (an insured plan)
- b. From net assets accumulated in a trust established by the plan (a self-funded plan).

965-10-05-5

As noted in the preceding paragraph, a plan may establish a trust to hold assets to pay all or part of the covered benefits. The assets may be segregated and legally restricted under a trust arrangement (such as a voluntary employees' beneficiary association or a 501(c)(9) trust, a 401(h) account, or other funding vehicles). Generally, if a separate trust exists, financial statements are required under the Employee Retirement Income Security Act. A trust always exists for a multiemployer plan. Such trusted plans with more than 100 participants generally will require an audit. For Employee Retirement Income Security Act filings, the U.S. Department of Labor will not accept an accountant's report that covers the assets of more than one plan.

965-10-05-6

If the trustee of the Voluntary Employees' Beneficiary Association is a bank or trust company, and the trust holds the assets of more than one plan sponsored by a single employer or by a group of entities under common control, it is a master trust subject to the Department of Labor's master trust filing requirements.

> Arrangements with Insurance Entities

965-10-05-7

The nature of, and method of accounting for, the assets and benefit obligations of a health and welfare benefit plan may be determined by the arrangement with an insurance entity. The insurance entity may assume all or a portion of the financial risk (for example, in [fully insured experience-rated arrangements](#), [fully insured pooled arrangements](#), [minimum premium plan arrangements](#), and [stop-loss arrangements](#)), or it may provide only administrative services (for example, in [administrative service arrangements](#)) or investment management services. It is important to have an understanding of the insurance arrangement to determine whether any or all of the risks associated with benefit payments or claims have been transferred to the insurance entity.

965-10-05-8

Certain group insurance contracts covering health and welfare benefit plans include a provision for a refund, at the end of the policy year, of the excess of premiums paid over the total of paid claims, required reserves, and the fee charged by the insurance entity. Often such experience-rating refunds (or dividends) are not determined by the insurance entity for several months after the end of the policy year.

965-10-05-9

Benefits to participants may be provided through insurance arrangements that transfer the risks of loss or liability to an insurance entity. Group insurance contracts for health and welfare plans are usually written for a one-year period, although the contract may provide for annual renewal. The contract generally specifies, among other things, all of the following:

- a. The schedule of benefits
- b. Eligibility rules
- c. Premium rate per eligible participant
- d. The date that premiums are due.

> The Employee Retirement Income Security Act of 1974

965-10-05-10

Health and welfare benefit plans are generally subject to certain of the reporting and other requirements of The Employee Retirement Income Security Act of 1974. In addition to establishing certain minimum standards for participation, vesting, and funding for employee benefit plans of private

entities, it also requires annual reporting of certain information to particular governmental agencies and summarized information to plan participants. For many plans, the reporting requirements include financial statements prepared in conformity with generally accepted accounting principles (GAAP).

965-10-05-11 The reporting requirements of the Act, except for certain particular references, are not included in the Codification, but they should nonetheless be considered by those responsible for the preparation of health and welfare benefit plan financial statements.

15 Scope and Scope Exceptions

i General Note: The Scope and Scope Exceptions Section outlines the items (for example, the entities, transactions, instruments, or events) to which the guidance in the Subtopic does or does not apply. In some cases, the Section may contain definitional or other text to frame the scope.

i General Note for Financial Instruments: Some of the items subject to the guidance in this Subtopic are [financial instruments](#). For guidance on matters related broadly to all financial instruments, (including the fair value option, accounting for registration payment arrangements, and broad financial instrument disclosure requirements), see Topic [825](#). See Section [825-10-15](#) for guidance on the scope of the Financial Instruments Topic.

General

> Overall Guidance

965-10-15-1 The Subtopics within the Plan Accounting—Health and Welfare Benefit Plans Topic only provide incremental guidance for the entities defined in this Scope Section, or as further defined in the Scope Sections of the individual Plan Accounting—Health and Welfare Benefit Plans Subtopics.

> Entities

965-10-15-2 The guidance in this Topic applies to all entities that are either [defined benefit](#) or [defined contribution health and welfare benefit plans](#) (referred to as [health and welfare benefit plans](#)).

965-10-15-3 Paragraphs [965-205-45-6 through 45-9](#) and [965-205-50-2 through 50-4](#) apply to health and welfare benefit plans if a portion or all of the [benefits](#) under such plans are funded through a 401(h) feature in a defined benefit pension plan.

20 Glossary

i General Note: The Master Glossary contains all terms identified as glossary terms throughout the Codification. Clicking on any term in the Master Glossary will display where the term is used. The Master Glossary may contain identical terms with different definitions, some of which may not be appropriate for a particular Subtopic. For any particular Subtopic, users should only use the glossary terms included in the particular Subtopic Glossary Section (Section 20).

Administrative Service Arrangement

In an administrative service arrangement, the plan retains the full obligation for plan benefits. The plan may engage an insurance entity or other third party to act as the plan administrator. The administrator makes all benefit payments, charges the plan for those payments, and collects a fee for the services provided.

Benefits

The monetary or in-kind benefits or benefit coverage to which participants may be entitled under a pension plan or a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). Examples of benefits may include, but are not limited to, health care benefits, life insurance, legal, educational, and advisory services, pension benefits, disability benefits, death benefits, and benefits due to termination of employment.

Contributory Plan

A plan under which retirees or active employees contribute part of the cost. In some contributory plans, retirees or active employees wishing to be covered must contribute; in other contributory plans, participants' contributions result in increased benefits.

Defined Benefit Plan

A defined benefit plan provides participants with a determinable benefit based on a formula provided for in the plan.

- a. Defined benefit health and welfare plans—Defined benefit health and welfare plans specify a determinable benefit, which may be in the form of a reimbursement to the covered plan participant or a direct payment to providers or third-party insurers for the cost of specified services. Such plans may also include benefits that are payable as a lump sum, such as death benefits. The level of benefits may be defined or limited based on factors such as age, years of service, and salary. Contributions may be determined by the plan's actuary or be based on premiums, actual claims paid, hours worked, or other factors determined by the plan sponsor. Even when a plan is funded pursuant to agreements that specify a fixed rate of employer contributions (for example, a collectively bargained multiemployer plan), such a plan may nevertheless be a defined benefit health and welfare plan if its substance is to provide a defined benefit.
- b. Defined benefit pension plan—A pension plan that defines an amount of pension benefit to be provided, usually as a function of one or more factors such as age, years of service, or

compensation. Any pension plan that is not a [defined contribution](#) pension plan is, for purposes of Subtopic [715-30](#), a defined benefit pension plan.

c. Defined benefit postretirement plan—A plan that defines postretirement benefits in terms of monetary amounts (for example, \$100,000 of life insurance) or benefit coverage to be provided (for example, up to \$200 per day for hospitalization, or 80 percent of the cost of specified surgical procedures). Any postretirement benefit plan that is not a defined contribution postretirement plan is, for purposes of Subtopic [715-60](#), a defined benefit postretirement plan. (Specified monetary amounts and benefit coverage are collectively referred to as benefits.)

Defined Contribution Plan

A plan that provides an individual account for each participant and provides benefits that are based on all of the following: amounts contributed to the participant's account by the employer or employee; investment experience; and any forfeitures allocated to the account, less any administrative expenses charged to the plan.

a. Defined contribution health and welfare plans—Defined contribution health and welfare plans maintain an individual account for each plan participant. They have terms that specify the means of determining the contributions to participants' accounts, rather than the amount of benefits the participants are to receive. The benefits a plan participant will receive are limited to the amount contributed to the participant's account, investment experience, expenses, and any forfeitures allocated to the participant's account. These plans also include flexible spending arrangements.

b. Defined contribution postretirement plan—A plan that provides postretirement benefits in return for services rendered, provides an individual account for each plan participant, and specifies how contributions to the individual's account are to be determined rather than specifies the amount of benefits the individual is to receive. Under a defined contribution postretirement plan, the benefits a plan participant will receive depend solely on the amount contributed to the plan participant's account, the returns earned on investments of those contributions, and the forfeitures of other plan participants' benefits that may be allocated to that plan participant's account.

Fully Insured Experience-Rated Arrangement

In a fully insured experience-rated arrangement, specified benefits are paid by the insurance entity that assumes all the financial risk. Contract experience is monitored by the insurance entity. Contract experience may or may not include the experience of other similar contract holders. To the extent that benefits incurred plus risk charges and administration costs are less than premiums paid, the related plan is entitled to an experience-rating refund or dividend (see paragraphs [965-310-25-2 through 25-3](#)). If the total of benefits incurred, risk charges, and administrative costs exceeds premiums, the accumulated loss is generally borne by the insurance entity but may be carried over to future periods until it has been recovered (see paragraph [965-30-25-5](#)). The related plan often has no obligation to continue coverage or to reimburse the carrier for any accumulated loss, although there are certain types of contracts that require additional payments by the plan.

Fully Insured Pooled Arrangement

In a fully insured pooled arrangement, specified benefits are covered by the insurance entity. The insurance entity pools the experience of the plan with that of other similar businesses and assumes the financial risk of adverse experience. In such an arrangement, a plan generally has no obligation for benefits covered by the arrangement other than the payment of premiums due to the insurance entity (see paragraph [965-10-05-9](#)).

Health and Welfare Benefit Plans

Health and welfare benefit plans include plans that provide the following:

- a. Any of the following benefits:
 - 1. Medical, dental, visual, psychiatric, or long-term health care
 - 2. Life insurance (offered separately from a pension plan)
 - 3. Certain severance benefits
 - 4. Accidental death or dismemberment benefits.
- b. Benefits for unemployment, disability, vacations, or holidays
- c. Other benefits such as apprenticeships, tuition assistance, day care, dependent care, housing subsidies, or legal services.

Minimum Premium Plan Arrangement

In a minimum premium plan arrangement, specified benefits are paid by the insurance entity. The insurance contract establishes a dollar limit, or trigger point. All claims paid by the insurance entity below the trigger point are reimbursed by the plan to the insurance entity. The insurance entity is not reimbursed for benefits incurred that exceed the trigger point. This type of funding arrangement requires the plan to fund the full claims experience up to the trigger point. Minimum premium plan arrangements may have characteristics of both self-funded and fully insured experience-rated arrangements.

Noncontributory Plan

A pension or other postretirement benefit plan under which participants do not make contributions.

Stop-Loss Arrangement

In a stop-loss insurance arrangement, a plan's obligation for any plan participant's claims may be limited to a fixed dollar amount, or the plan's total obligation may be limited to a maximum percentage (for example, 125 percent) of a preset expected claims level. These arrangements are commonly used with administrative service arrangements. The insurance entity assumes the benefit obligation in excess of the limit. Stop-loss insurance arrangements may have characteristics of both self-funded and fully insured arrangements.

05 Overview and Background

General Note: The Overview and Background Section provides overview and background material for the guidance contained in the Subtopic. It does not provide the historical background or due process. It may contain certain material that users generally consider useful to understand the typical situations addressed by the standards. The Section does not summarize the accounting and reporting requirements.

General

965-20-05-1 This Subtopic provides guidance on net assets available for benefits for [health and welfare benefit plans](#).

15 Scope and Scope Exceptions

General Note: The Scope and Scope Exceptions Section outlines the items (for example, the entities, transactions, instruments, or events) to which the guidance in the Subtopic does or does not apply. In some cases, the Section may contain definitional or other text to frame the scope.

General

> Overall Guidance

965-20-15-1 This Subtopic follows the same Scope and Scope Exceptions as outlined in the Overall Subtopic, see Section [965-10-15](#).

20 Glossary

General Note: The Master Glossary contains all terms identified as glossary terms throughout the Codification. Clicking on any term in the Master Glossary will display where the term is used. The Master Glossary may contain identical terms with different definitions, some of which may not be appropriate for a particular Subtopic. For any particular Subtopic, users should only use the glossary terms included in the particular Subtopic Glossary Section (Section 20).

Benefits

The monetary or in-kind benefits or benefit coverage to which participants may be entitled under a pension plan or a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). Examples of benefits may include, but are not limited to, health care benefits, life insurance, legal, educational, and advisory services, pension benefits, disability benefits, death benefits, and benefits due to termination of employment.

Fair Value

The price that would be received to sell an asset or paid to transfer a liability in an [orderly transaction](#) between [market participants](#) at the measurement date.

Health and Welfare Benefit Plans

Health and welfare benefit plans include plans that provide the following:

- a. Any of the following benefits:
 1. Medical, dental, visual, psychiatric, or long-term health care
 2. Life insurance (offered separately from a pension plan)
 3. Certain severance benefits
 4. Accidental death or dismemberment benefits.
- b. Benefits for unemployment, disability, vacations, or holidays
- c. Other benefits such as apprenticeships, tuition assistance, day care, dependent care, housing subsidies, or legal services.

Market Participants

Buyers and sellers in the principal (or most advantageous) market for the asset or liability that have all of the following characteristics:

- a. They are independent of each other, that is, they are not [related parties](#), although the price in a related-party transaction may be used as an input to a fair value measurement if the reporting entity has evidence that the transaction was entered into at market terms
- b. They are knowledgeable, having a reasonable understanding about the asset or liability and the transaction using all available information, including information that might be obtained through due diligence efforts that are usual and customary

- c. They are able to enter into a transaction for the asset or liability
- d. They are willing to enter into a transaction for the asset or liability, that is, they are motivated but not forced or otherwise compelled to do so.

Orderly Transaction

A transaction that assumes exposure to the market for a period before the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets or liabilities; it is not a forced transaction (for example, a forced liquidation or distress sale).

Plan Assets

Assets—usually stocks, bonds, and other investments (except certain insurance contracts as noted in paragraph [715-60-35-109](#))—that have been segregated and restricted (usually in a trust) to be used for a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). The amount of plan assets includes amounts contributed by the employer, and by plan participants for a contributory plan, and amounts earned from investing the contributions, less benefits, income taxes, and other expenses incurred. Plan assets ordinarily cannot be withdrawn by the employer except under certain circumstances when a plan has assets in excess of obligations and the employer has taken certain steps to satisfy existing obligations. Securities of the employer held by the plan are includable in plan assets provided they are transferable. Assets not segregated in a trust, or otherwise effectively restricted, so that they cannot be used by the employer for other purposes are not plan assets, even though the employer may intend that those assets be used to provide health and welfare benefits, which may include postretirement benefits. Those assets shall be accounted for in the same manner as other employer assets of a similar nature and with similar restrictions. If a plan has liabilities other than for benefits, those nonbenefit obligations are considered as reductions of plan assets. Amounts accrued by the employer but not yet paid to the plan are not plan assets. If a trust arrangement explicitly provides that segregated assets are available to satisfy claims of creditors in bankruptcy, such a provision would effectively permit those assets to be used for other purposes at the discretion of the employer. It is not necessary to determine that a trust is bankruptcy-proof for the assets of the trust to qualify as plan assets. However, assets held in a trust that explicitly provides that such assets are available to the general creditors of the employer in the event of the employer's bankruptcy would not qualify as plan assets.

Related Parties

Related parties include:

- a. Affiliates of the entity
- b. Entities for which investments in their equity securities would be required, absent the election of the fair value option under the [Fair Value Option Subsection](#) of Section 825-10-15, to be accounted for by the equity method by the investing entity
- c. Trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management
- d. Principal owners of the entity and members of their immediate families
- e. Management of the entity and members of their immediate families
- f. Other parties with which the entity may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests
- g. Other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

25 Recognition

General Note: The Recognition Section provides guidance on the required criteria, timing, and location (within the financial statements) for recording a particular item in the financial statements. Disclosure is not recognition.

General

965-20-25-1 A plan may have liabilities (other than for [benefits](#)) that should be accrued. Such liabilities may be for amounts owed for securities purchased, income taxes payable by the plan, or other expenses (for example, third-party administrator fees). These liabilities shall be deducted to arrive at net assets available for benefits.

30 Initial Measurement

General Note: The Initial Measurement Section provides guidance on the criteria and amounts used to measure a particular item at the date of initial recognition.

General

> Noncash Contribution

965-20-30-1 A noncash contribution shall be recorded at [fair value](#) less costs to sell, if significant, at the date of the contribution.

45 Other Presentation Matters

General Note: The Other Presentation Matters Section provides guidance on other presentation matters not addressed in the Recognition, Initial Measurement, Subsequent Measurement, and Derecognition Sections.

Other presentation matters may include items such as current or long-term balance sheet classification, cash flow presentation, earnings per share matters, and so forth. The FASB Codification also contains Presentation Topics, which provide guidance for general presentation and display items. See those Topics for general guidance.

General

> Statement of Net Assets Available for Benefits

- 965-20-45-1** The statement of net assets available for benefits of the plan shall present amounts for the following:
- Total assets
 - Total liabilities
 - [Subparagraph superseded by Accounting Standards Update No. 2015-12.](#) (Part I).
 - Net assets available for benefits.

- 965-20-45-2** [Paragraph superseded by Accounting Standards Update No. 2015-12.](#) (Part I).

> Statement of Changes in Net Assets Available for Benefits

- 965-20-45-3** The statement of changes in net assets available for benefits shall be presented in enough detail to identify the significant changes during the year, including, as applicable, the following:
- Contributions from employers, segregated between cash and noncash contributions
 - The nature of noncash contributions described either parenthetically or in a note
 - Contributions from participants, including those collected and remitted by the sponsor
 - Contributions from other identified sources (for example, state subsidies or federal grants)
 - The net appreciation or depreciation in fair value. Net appreciation or depreciation includes realized gains and losses on investments that were both purchased and sold during the period as well as unrealized appreciation or depreciation of the investments held at year-end.
 - Investment income, excluding the net appreciation or depreciation
 - Income taxes paid or payable, if applicable
 - Payments of claims, excluding payments made by an insurance entity pursuant to contracts that are excluded from [plan assets](#)
 - Payments of premiums to insurance entities to purchase contracts that are excluded from plan assets
 - Operating and administrative expenses
 - Other changes (such as transfers of assets to or from other plans), if significant.
- 965-20-45-4** The list of minimum disclosures is not intended to define the degree of detail or the manner of presenting the information, and subclassifications or additional classifications may be useful.
- 965-20-45-5** The statement of changes in net assets available for benefits shall be prepared on a basis that reflects income credited to participants in the plan and net appreciation or depreciation in the fair value of only those investment contracts that are not deemed to be fully benefit responsive.

50 Disclosure

General Note:The Disclosure Section provides guidance regarding the disclosure in the notes to financial statements. In some cases, disclosure may relate to disclosure on the face of the financial statements.

General

965-20-50-1 The nature of noncash contributions shall be described either parenthetically or in a note.

For any particular Subtopic, users should only use the glossary terms included in the particular Subtopic Glossary Section (Section 20).

Accumulated Eligibility Credits

Plan participants may qualify for a benefit in which eligibility credits or hours accumulate and result in the plan covering payment of insurance premiums or benefits for a period of time for those participants who have accumulated a sufficient number of such credits or hours to be eligible for the credits. Eligible participants are provided with insurance coverage during periods of unemployment, when employer contributions to the plan would not otherwise provide coverage or benefits. The accumulated eligibility credits are sometimes referred to as bank of hours.

Administrative Service Arrangement

In an administrative service arrangement, the plan retains the full obligation for plan benefits. The plan may engage an insurance entity or other third party to act as the plan administrator. The administrator makes all benefit payments, charges the plan for those payments, and collects a fee for the services provided.

Benefits

The monetary or in-kind benefits or benefit coverage to which participants may be entitled under a pension plan or a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). Examples of benefits may include, but are not limited to, health care benefits, life insurance, legal, educational, and advisory services, pension benefits, disability benefits, death benefits, and benefits due to termination of employment.

Defined Benefit Plan

A defined benefit plan provides participants with a determinable benefit based on a formula provided for in the plan.

a. Defined benefit health and welfare plans—Defined benefit health and welfare plans specify a determinable benefit, which may be in the form of a reimbursement to the covered plan participant or a direct payment to providers or third-party insurers for the cost of specified services. Such plans may also include benefits that are payable as a lump sum, such as death benefits. The level of benefits may be defined or limited based on factors such as age, years of service, and salary. Contributions may be determined by the plan's actuary or be based on premiums, actual claims paid, hours worked, or other factors determined by the plan sponsor. Even when a plan is funded pursuant to agreements that specify a fixed rate of employer contributions (for example, a collectively bargained multiemployer plan), such a plan may

nevertheless be a defined benefit health and welfare plan if its substance is to provide a defined benefit.

b. Defined benefit pension plan—A pension plan that defines an amount of pension benefit to be provided, usually as a function of one or more factors such as age, years of service, or compensation. Any pension plan that is not a [defined contribution](#) pension plan is, for purposes of Subtopic [715-30](#), a defined benefit pension plan.

c. Defined benefit postretirement plan—A plan that defines postretirement benefits in terms of monetary amounts (for example, \$100,000 of life insurance) or benefit coverage to be provided (for example, up to \$200 per day for hospitalization, or 80 percent of the cost of specified surgical procedures). Any postretirement benefit plan that is not a defined contribution postretirement plan is, for purposes of Subtopic [715-60](#), a defined benefit postretirement plan. (Specified monetary amounts and benefit coverage are collectively referred to as benefits.)

Defined Contribution Plan

A plan that provides an individual account for each participant and provides benefits that are based on all of the following: amounts contributed to the participant's account by the employer or employee; investment experience; and any forfeitures allocated to the account, less any administrative expenses charged to the plan.

a. Defined contribution health and welfare plans—Defined contribution health and welfare plans maintain an individual account for each plan participant. They have terms that specify the means of determining the contributions to participants' accounts, rather than the amount of benefits the participants are to receive. The benefits a plan participant will receive are limited to the amount contributed to the participant's account, investment experience, expenses, and any forfeitures allocated to the participant's account. These plans also include flexible spending arrangements.

b. Defined contribution postretirement plan—A plan that provides postretirement benefits in return for services rendered, provides an individual account for each plan participant, and specifies how contributions to the individual's account are to be determined rather than specifies the amount of benefits the individual is to receive. Under a defined contribution postretirement plan, the benefits a plan participant will receive depend solely on the amount contributed to the plan participant's account, the returns earned on investments of those contributions, and the forfeitures of other plan participants' benefits that may be allocated to that plan participant's account.

Fully Insured Experience-Rated Arrangement

In a fully insured experience-rated arrangement, specified benefits are paid by the insurance entity that assumes all the financial risk. Contract experience is monitored by the insurance entity. Contract experience may or may not include the experience of other similar contract holders. To the extent that benefits incurred plus risk charges and administration costs are less than premiums paid, the related plan is entitled to an experience-rating refund or dividend (see paragraphs [965-310-25-2 through 25-3](#)). If the total of benefits incurred, risk charges, and administrative costs exceeds premiums, the accumulated loss is generally borne by the insurance entity but may be carried over to future periods until it has been recovered (see paragraph [965-30-25-5](#)). The related plan often has no obligation to continue coverage or to reimburse the carrier for any accumulated loss, although there are certain types of contracts that require additional payments by the plan.

Health and Welfare Benefit Plans

Health and welfare benefit plans include plans that provide the following:

a. Any of the following benefits:

1. Medical, dental, visual, psychiatric, or long-term health care

- 2. Life insurance (offered separately from a pension plan)
- 3. Certain severance benefits
- 4. Accidental death or dismemberment benefits.
- b. Benefits for unemployment, disability, vacations, or holidays
- c. Other benefits such as apprenticeships, tuition assistance, day care, dependent care, housing subsidies, or legal services.

Plan Assets

Assets—usually stocks, bonds, and other investments (except certain insurance contracts as noted in paragraph 715-60-35-109)—that have been segregated and restricted (usually in a trust) to be used for a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). The amount of plan assets includes amounts contributed by the employer, and by plan participants for a contributory plan, and amounts earned from investing the contributions, less benefits, income taxes, and other expenses incurred. Plan assets ordinarily cannot be withdrawn by the employer except under certain circumstances when a plan has assets in excess of obligations and the employer has taken certain steps to satisfy existing obligations. Securities of the employer held by the plan are includable in plan assets provided they are transferable. Assets not segregated in a trust, or otherwise effectively restricted, so that they cannot be used by the employer for other purposes are not plan assets, even though the employer may intend that those assets be used to provide health and welfare benefits, which may include postretirement benefits. Those assets shall be accounted for in the same manner as other employer assets of a similar nature and with similar restrictions. If a plan has liabilities other than for benefits, those nonbenefit obligations are considered as reductions of plan assets. Amounts accrued by the employer but not yet paid to the plan are not plan assets. If a trust arrangement explicitly provides that segregated assets are available to satisfy claims of creditors in bankruptcy, such a provision would effectively permit those assets to be used for other purposes at the discretion of the employer. It is not necessary to determine that a trust is bankruptcy-proof for the assets of the trust to qualify as plan assets. However, assets held in a trust that explicitly provides that such assets are available to the general creditors of the employer in the event of the employer's bankruptcy would not qualify as plan assets.

Stop-Loss Arrangement

In a stop-loss insurance arrangement, a plan's obligation for any plan participant's claims may be limited to a fixed dollar amount, or the plan's total obligation may be limited to a maximum percentage (for example, 125 percent) of a preset expected claims level. These arrangements are commonly used with administrative service arrangements. The insurance entity assumes the benefit obligation in excess of the limit. Stop-loss insurance arrangements may have characteristics of both self-funded and fully insured arrangements.

25 Recognition

i General Note: The Recognition Section provides guidance on the required criteria, timing, and location (within the financial statements) for recording a particular item in the financial statements. Disclosure is not recognition.

General

> Benefit Payments

965-30-25-1 A health and welfare plan may process benefit payments directly or it may retain a third-party administrator (for example, an [administrative service arrangement](#)). In either case, a plan that is fully or partially self-funded is obligated for the related [benefits](#), as described in this Subtopic.

> Premiums Due under Insurance Arrangements

965-30-25-2 The benefit obligations shall include any obligation for premiums due but not paid under insurance arrangements.

> Postemployment Benefits

965-30-25-3 Plans that provide postemployment benefits shall recognize a benefit obligation for current participants, based on amounts expected to be paid in subsequent years, if all the following conditions are met:

- a. The participants' rights to receive benefits are attributable to services already rendered.
- b. The participants' benefits vest or accumulate. For example, the supplemental unemployment benefit is 52 weeks' pay if a participant worked 3 years, 78 weeks' pay if a participant worked 5 years, and 104 weeks' pay if a participant worked 7 years. In this situation, the benefits would be considered accumulating. Benefits that increase solely as a function of wage or salary increases are not considered accumulating.
- c. Payment of benefits is probable.
- d. The amount can be reasonably estimated.

965-30-25-4 For postemployment benefits that do not meet conditions (a) and (b) in the preceding paragraph, the plan shall recognize a benefit obligation if the event that gives rise to a liability has occurred and the amount can be reasonably estimated. For example, if all participants receive the same medical coverage upon disability regardless of length of service (the benefits do not accumulate) and the benefits do not vest, medical benefits for disabled participants shall be accrued at the date of disability and not over the participants' working lives.

> Obligation for Premium Deficit

965-30-25-5 Experience ratings determined by the insurance entity or by estimates (for example, in [fully insured experience-rated arrangements](#)) may result in a premium deficit. Premium deficits shall be included in the benefit obligations if both of the following criteria are met:

- a. It is probable that the deficit will be applied against the amounts of future premiums or future experience-rating refunds. This determination shall consider both of the following:
 - 1. The extent to which the insurance contract requires payment of such deficits
 - 2. The plan's intention, if any, to transfer coverage to another insurance entity.
- b. The amount can be reasonably estimated.

30 Initial Measurement

- i General Note:** The Initial Measurement Section provides guidance on the criteria and amounts used to measure a particular item at the date of initial recognition.

General

965-30-30-1 [Section not used]

35 Subsequent Measurement

- i General Note:** The Subsequent Measurement Section provides guidance on an entity's subsequent measurement and subsequent recognition of an item. Situations that may result in subsequent changes to carrying amount include impairment, credit losses, fair value adjustments, depreciation and amortization, and so forth.

General

> Components of Benefit Obligations

- 965-30-35-1** Benefit obligations for single-employer, multiple-employer, and multiemployer [defined benefit health and welfare plans](#) shall include the actuarial present value, as applicable, for all of the following:
- Claims payable, claims incurred but not reported, and premiums due to insurance entities. Claims incurred but not reported may be computed in the aggregate for active participants and retirees. Alternatively, if claims incurred but not reported are not calculated in the aggregate for active participants and retirees, such claims for retirees are recorded in the postretirement benefit obligation.
 - [Accumulated eligibility credits](#) and postemployment [benefits](#), net of amounts currently payable
 - Postretirement benefits for the following groups of participants:
 - Retired plan participants, including their beneficiaries and covered dependents, net of amounts currently payable and claims incurred but not reported (assuming such amounts are included in the aggregate computation described in [a]).
 - Other plan participants fully eligible for benefits
 - Plan participants not yet fully eligible for benefits.

- 965-30-35-1A** For a self-funded plan, the cost of incurred but not reported claims shall be measured at the present value, as applicable, of the estimated ultimate cost to the plan of settling the claims. Estimated ultimate cost shall reflect the plan's obligation to pay claims to or for participants, regardless of status of employment, beyond the financial statement date pursuant to the provisions of the plan or regulatory requirements.
- 965-30-35-2** Administrative expenses expected to be paid by the plan (but not those paid directly by the plan's participating employer[s]) that are associated with providing the plan's benefits shall be reflected by either of the following:
- Including the estimated costs in the benefits expected to be paid by the plan
 - Reducing the discount rate(s) used in measuring the benefit obligation.
- 965-30-35-3** Aggregating claims payable and claims incurred but not reported is often appropriate if adequate time has passed to provide sufficient data on costs incurred and the actuarially determined expected cost of long-term medical claims is insignificant.
- 965-30-35-4** Benefits expected to be earned for future service by active participants (for example, vacation benefits) during the term of their employment shall not be included.
- 965-30-35-5** Benefit obligations shall be reported as of the end of the plan year.
- 965-30-35-6** The financial status of the plan considers assets and obligations as of the same date. Because [plan assets](#) are required to be presented as of the plan's year end, the benefit obligations also shall be measured and presented as of the plan's year end. That requirement does not, however, preclude the plan from using the most recent benefit obligations valuation rolled forward to the plan's year end to account for events occurring between the most recent valuation date and the plan's year end (such as employee service and benefit payments), provided that it is reasonable to expect that the results will not be materially different from the results of an actuarial valuation as of the plan's year end. In rolling forward the benefit obligations to the plan's measurement date, the discount rates shall be adjusted as appropriate to reflect current rates of return on high-quality fixed-income investments. For example, if a valuation was performed at September 30 and the plan has a calendar year end, the benefit obligations as of September 30 should be rolled forward to December 31, by making appropriate adjustments, such as for additional employee service; the time value of money; benefits paid; and changes in the number of participants, actuarial assumptions, discount rates, per capita claims costs, and plan terms.
- 965-30-35-7** The effect of plan amendments shall be included in the computation of the expected and accumulated postretirement benefit obligations once they have been contractually agreed to, even if some provisions take effect only in future periods. For example, if a plan amendment grants a different benefit level for employees retiring after a future date, that increased or reduced benefit level should be included in current-period measurements for employees expected to retire after that date.

> Postemployment Benefits

- 965-30-35-8** [Paragraph not used.](#)
- 965-30-35-9** The postemployment benefit obligation shall be measured as the actuarial present value of the future benefits attributed to plan participants' services rendered to the measurement date, reduced by the actuarial present value of future contributions expected to be received from the current plan participants. That amount represents the benefit obligation that is to be funded by contributions from the plan's participating employer(s) and from existing plan assets. The obligation is to be measured assuming the plan continues in effect and all assumptions about future events are met. Any anticipated forfeitures or integration with other related programs (for example, state unemployment benefits) shall be considered. The benefit obligation shall be discounted using rates of return on high-

quality fixed-income investments currently available with cash flows that match the timing and amount of expected benefit payments and expected participant contributions.

965-30-35-10 When participant contributions are required after the event triggering postemployment benefits occurs (for example, employee disability, as described in paragraph 965-30-25-4), the postemployment benefit obligation shall be measured in a manner consistent with paragraph 965-30-35-9. As a result, in those situations the benefit obligation shall represent the amount that is to be funded by contributions from the participating employer(s) and from existing plan assets.

965-30-35-11 [Paragraph not used.](#)

> Accumulated Eligibility Credits

965-30-35-12 Plans may provide for the payment of insurance premiums or benefits for a period of time for those participants who have accumulated a sufficient number of eligibility credits or hours. At the financial statement date, such accumulated eligibility credits represent an obligation of the plan arising from prior employee service for which employer contributions have been received. This benefit obligation is generally determined by applying current insurance premium rates to accumulated eligibility credits or, for a self-funded plan, by applying the average cost of benefits per eligible participant to accumulated eligibility credits. In either case, the obligation for accumulated eligibility credits shall consider assumptions for mortality and expected employee turnover or other appropriate adjustments, to reflect the obligation at the amount expected to be paid.

> Premiums Due under Insurance Arrangements

965-30-35-13 If an insurance contract requires payment of additional premiums (for example, retrospective premiums) when the loss ratio exceeds a specified percentage, an obligation for the estimated additional premiums shall be included in the benefit obligations.

> Stop-Loss Arrangements

965-30-35-14 [Stop-loss arrangements](#) may be described by a variety of terms; therefore, details of all insurance or administrative arrangements should be reviewed carefully to determine if stop-loss provisions are included and to determine the specific benefit obligations assumed by the insurance entity.

> Postretirement Benefit Obligations

965-30-35-15 [Health and welfare benefit plans](#) may continue to provide benefits to participants after retirement (postretirement benefits). Those benefits may commence immediately upon termination of service or payment may be deferred until the participant attains a specified age. If a plan provides postretirement benefits to participants, an estimated amount for those benefits, as described in the following paragraph, shall be included in the benefit obligations.

965-30-35-16 The postretirement benefit obligation as of the measurement date is the actuarial present value of all future benefits attributed to plan participants' services rendered to that date, assuming the plan continues in effect and all assumptions about future events are fulfilled. Postretirement benefits comprise benefits expected to be paid to or on behalf of any of the following who are expected to receive benefits under the health and welfare benefit plan:

- A retired or active participant
- A terminated participant

- c. A beneficiary or covered dependent.

- 965-30-35-17** Postretirement benefits expected to be paid to or for any of the following who are still earning their postretirement benefits (that is, one who is not yet fully eligible) shall be measured over the participant's credited period of service up to the date when full eligibility for benefits is attained:
- a. An active participant
 - b. A beneficiary
 - c. A covered dependent.
- 965-30-35-18** For example, if a participant has worked 8 years and must work another 16 to be fully eligible for benefits after retirement, one-third of the postretirement benefits have been earned and should be included in the postretirement benefit obligation if it is probable that the employee will work the remaining 16 years.
- 965-30-35-19** If a multi-employer health and welfare benefit plan provides postretirement benefits, the benefit obligations shall include the postretirement benefit obligation. Consideration should be given to the promises currently made to employees and the history of making such payments to retirees. The fact that benefits may be reduced or even potentially eliminated would not ordinarily affect the promise made as of the end of the plan year unless the change meets the substantive plan criteria of Subtopic [715-60](#) (for example, an amendment is in place or has been communicated to employees). The fact that the contributing employers of a multi-employer plan do not record a similar obligation under that Subtopic does not affect the accounting for the obligations by the plan.
- 965-30-35-20** The postretirement benefit obligation shall be measured using the plan's written provisions to the extent possible, as well as the substantive plan if it differs from the written plan. In many health and welfare benefit plans, postretirement benefits are not defined as a specified amount for each year of service. Section [715-60-35](#) describes the measurement of the postretirement benefit obligation. For multi-employer plans that do not have date-of-hire information as required by paragraph [715-60-35-66](#), reasonable estimates thereof shall be used to measure the obligation. Death or disability benefits provided outside of a pension plan (if the employee is considered to be retired) shall also be included in the calculation of the postretirement benefit obligation. Benefits that are provided through an insurance contract shall be excluded. Insured plans shall be reviewed carefully to determine the extent to which postretirement benefits are insured. Currently, except for single-premium life insurance contracts, few, if any, insurance contracts unconditionally obligate an insurance entity to provide most forms of postretirement benefits.
- 965-30-35-21** In measuring the postretirement benefit obligation explicit assumptions shall be used, each of which represents the best estimate of a particular future event. All assumptions shall presume that the plan will continue in its present form, unless there is evidence to the contrary. Principal actuarial assumptions used shall include all of the following:
- a. Discount rates, used to reflect the time value of money in determining the present value of future cash outflows currently expected to be required to satisfy the liability in the due course of business
 - b. The timing and amount of future postretirement benefit payments (taking into consideration per capita claims cost by age, health care cost-trend rates, current Medicare reimbursement rates, retirement age, dependency status, and mortality)
 - c. Salary progression (for pay-related plans)
 - d. The probability of payment (considering turnover, retirement age, dependency status, and mortality)
 - e. Participation rates (for contributory plans).
- 965-30-35-22** The postretirement benefit obligation information shall include the following classifications:

- a. Obligations related to retired plan participants, including their beneficiaries and covered dependents
- b. Obligations related to active or terminated participants who are fully eligible to receive benefits
- c. Obligations related to other plan participants not yet fully eligible for benefits.

45 Other Presentation Matters

i General Note: The Other Presentation Matters Section provides guidance on other presentation matters not addressed in the Recognition, Initial Measurement, Subsequent Measurement, and Derecognition Sections. Other presentation matters may include items such as current or long-term balance sheet classification, cash flow presentation, earnings per share matters, and so forth. The FASB Codification also contains Presentation Topics, which provide guidance for general presentation and display items. See those Topics for general guidance.

General

> Classifications of Benefit Obligations

- 965-30-45-1** To the extent they exist, the amounts of benefit obligations in each of the three major classifications identified in paragraph [965-30-35-1](#) shall be shown as separate line items in the financial statements or notes to financial statements. Regardless of the format selected, the plan financial statements shall present the benefit obligations information in its entirety in the same location.
- 965-30-45-2** In an insured health and welfare benefit plan, claims payable and currently due and claims incurred but not yet reported to the plan will be paid by the insurance entity. Consequently, they should be excluded from the benefit obligations of the plan. Benefit obligations of a self-funded plan shall present the amount of both of the following:
- a. Claims payable and currently due for active and retired participants, dependents, and beneficiaries
 - b. Incurred but not reported claims for active participants.
- 965-30-45-3** Incurred but not reported claims for retired participants are included in the postretirement benefit obligation, if separately calculated in accordance with paragraph [965-30-35-1\(a\)](#).

> Changes in Benefit Obligations

- 965-30-45-4** Information regarding changes in the benefit obligations within a plan period shall be presented to identify significant factors affecting year-to-year changes in benefit obligations.
- 965-30-45-5** Changes in each of the three major classifications of benefit obligations (see paragraph [965-30-35-1](#)) shall be presented in the body of the financial statements or in the notes to financial statements; the

information may be presented in either a reconciliation or narrative format. Providing such information in the following categories will generally be sufficient:

- a. Claims payable, claims incurred but not reported, and premiums due to insurance entities
- b. [Accumulated eligibility credits](#) and postemployment [benefits](#), net of amounts currently payable
- c. Postretirement benefits for the following:
 - 1. Retired plan participants, including their beneficiaries and covered dependents, net amounts currently payable, and claims incurred but not reported
 - 2. Other plan participants fully eligible for benefits
 - 3. Plan participants not yet fully eligible for benefits.

965-30-45-6 Minimum disclosure regarding changes in benefit obligations shall include the significant effects of all of the following:

- a. Plan amendments
- b. Changes in the nature of the plan (mergers or spinoffs)
- c. Changes in actuarial assumptions (health care cost-trend rate or interest rate).

965-30-45-7 Changes in actuarial assumptions are to be considered as changes in accounting estimates and, therefore, previously reported amounts shall not be restated. The significant effects of other factors may also be identified. These include, for example, the following:

- a. Benefits accumulated. Actuarial experience gains or losses may be included with the effects of additional benefits accumulated rather than separately disclosed. If the effects of changes in actuarial assumptions cannot be separately determined, those effects shall be included in benefits accumulated and described accordingly.
- b. The effects of the time value of money (for interest).
- c. Benefits paid.

965-30-45-8 If presented, benefits paid shall not include benefit payments made by an insurance entity pursuant to a contract that is excluded from [plan assets](#). However, amounts paid by the plan to an insurance entity pursuant to such a contract (including purchases of annuities with amounts allocated from existing investments with the insurance entity) shall be included in benefits paid. Because of the use of different actuarial assumptions, the amount paid by the plan to an insurance entity may be different from the previous measure of the actuarial present value of the related accumulated plan benefits. If that information is available, it shall be presented as an actuarial experience gain or loss. If only the minimum disclosure is presented, presentation in a statement format will necessitate an additional unidentified other category to reconcile the initial and ultimate amounts.

50 Disclosure

General Note: The Disclosure Section provides guidance regarding the disclosure in the notes to financial statements. In some cases, disclosure may relate to disclosure on the face of the financial statements.

General

> Postretirement Benefit Obligations

965-30-50-1 Separate disclosure for each classification for each significant benefit described in paragraph [965-30-35-22](#) (for example, medical and death) may be appropriate.

> Postemployment Benefits

965-30-50-2 If an obligation for postemployment [benefits](#) is not recognized in accordance with paragraphs [965-30-25-3](#) and [965-30-35-9 through 35-10](#) only because the amount cannot be reasonably estimated, the financial statements shall disclose that fact.

> Amounts Due During Plan Contract Period

965-30-50-3 For negotiated plans, benefit obligations due during a plan's contract period may, but need not, be disclosed. Paragraphs [965-10-05-4 through 05-6](#) provide a discussion of the characteristics of plans, including plans negotiated with one or more labor unions.

> Obligation for Premium Deficit

965-30-50-4 If no obligation is included for a premium deficit under insurance arrangements because any of the conditions described in paragraph [965-30-25-5](#) are not met, or if an exposure to loss exists in excess of the amount accrued, disclosure of the premium deficit shall be made if it is reasonably possible that a loss or an additional loss has been incurred.

> Additional Financial Statement Disclosures

965-30-50-5 Disclosure of a health and welfare benefit plan's accounting policies shall include both of the following:

- a. A description of the methods and significant actuarial assumptions used to determine the plan's benefit obligations. Any significant changes in assumptions made between financial statement dates and their effects shall be described.
- b. The weighted-average assumed discount rate used to measure the plan's obligation for postemployment benefits.

965-30-50-6 See paragraph [965-30-45-5](#) for disclosure requirements of the changes in each of the three major classifications of benefit obligations if not presented in the body of the financial statements.

965-30-50-7 If administrative expenses expected to be paid by the plan (but not those paid directly by the plan's participating employer[s]) that are associated with providing the plan's benefits are reflected by reducing the discount rate(s) used in measuring the benefit obligation, the resulting reduction in the discount rate(s) shall be disclosed.

965-40-35-2	Amended	Accounting Standards Update No. 2014-06	03/14/2014
965-40-35-2	Amended	Accounting Standards Update No. 2013-07	04/22/2013
965-40-50-1	Amended	Accounting Standards Update No. 2014-06	03/14/2014

05 Overview and Background

- i General Note:** The Overview and Background Section provides overview and background material for the guidance contained in the Subtopic. It does not provide the historical background or due process. It may contain certain material that users generally consider useful to understand the typical situations addressed by the standards. The Section does not summarize the accounting and reporting requirements.

General

965-40-05-1 This Subtopic provides guidance for [health and welfare benefit plans](#) that are [terminating plans](#).

15 Scope and Scope Exceptions

- i General Note:** The Scope and Scope Exceptions Section outlines the items (for example, the entities, transactions, instruments, or events) to which the guidance in the Subtopic does or does not apply. In some cases, the Section may contain definitional or other text to frame the scope.

General

> Overall Guidance

965-40-15-1 This Subtopic follows the same Scope and Scope Exceptions as outlined in the Overall Subtopic, see Section [965-10-15](#).

20 Glossary

- i General Note:** The Master Glossary contains all terms identified as glossary terms throughout the Codification. Clicking on any term in the Master Glossary will display where the term is used. The Master Glossary may contain identical terms with different definitions, some of which may not be appropriate for a particular Subtopic. For any particular Subtopic, users should only use the glossary terms included in the particular Subtopic Glossary Section (Section 20).

Benefits

The monetary or in-kind benefits or benefit coverage to which participants may be entitled under a pension plan or a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). Examples of benefits may include, but are not limited to, health care benefits, life insurance, legal, educational, and advisory services, pension benefits, disability benefits, death benefits, and benefits due to termination of employment.

Health and Welfare Benefit Plans

Health and welfare benefit plans include plans that provide the following:

- a. Any of the following benefits:
 1. Medical, dental, visual, psychiatric, or long-term health care
 2. Life insurance (offered separately from a pension plan)
 3. Certain severance benefits
 4. Accidental death or dismemberment benefits.
- b. Benefits for unemployment, disability, vacations, or holidays
- c. Other benefits such as apprenticeships, tuition assistance, day care, dependent care, housing subsidies, or legal services.

Liquidation

The process by which an entity converts its assets to cash or other assets and settles its obligations with creditors in anticipation of the entity ceasing all activities. Upon cessation of the entity's activities, any remaining cash or other assets are distributed to the entity's investors or other claimants (albeit sometimes indirectly). Liquidation may be compulsory or voluntary. Dissolution of an entity as a result of that entity being acquired by another entity or merged into another entity in its entirety and with the expectation of continuing its business does not qualify as liquidation.

Terminating Plan

All plans about which a termination decision has been made regardless of whether the terminating plan will be replaced.

25 Recognition

i General Note: The Recognition Section provides guidance on the required criteria, timing, and location (within the financial statements) for recording a particular item in the financial statements. Disclosure is not recognition.

General

- 965-40-25-1** If the [liquidation](#) of a plan is deemed to be imminent (as defined in paragraph [205-30-25-2](#)) before the end of the plan year, the plan's year-end financial statements shall be prepared using the liquidation basis of accounting in accordance with Subtopic [205-30](#).
- 965-40-25-2** Plan financial statements for periods ending after the determination that liquidation is imminent are prepared using the liquidation basis of accounting.

30 Initial Measurement

General Note: The Initial Measurement Section provides guidance on the criteria and amounts used to measure a particular item at the date of initial recognition.

General

965-40-30-1 [Section not used]

35 Subsequent Measurement

General Note: The Subsequent Measurement Section provides guidance on an entity's subsequent measurement and subsequent recognition of an item. Situations that may result in subsequent changes to carrying amount include impairment, credit losses, fair value adjustments, depreciation and amortization, and so forth.

General

- 965-40-35-1** Paragraph superseded by Accounting Standards Update No. 2013-07.
- 965-40-35-2** For [terminating plans](#), benefit obligations shall be determined using the liquidation basis of accounting (see Subtopic [205-30](#)), and their carrying value may differ from the actuarial present value of benefit obligations reported for an ongoing plan. Consideration shall be given upon the determination that liquidation is imminent to whether any or all [benefits](#) become vested.

50 Disclosure

General Note:The Disclosure Section provides guidance regarding the disclosure in the notes to financial statements. In some cases, disclosure may relate to disclosure on the face of the financial statements.

General

965-40-50-1 When the decision has been made to terminate a plan or when a wasting trust (that is, a plan under which participants no longer accrue [benefits](#) but that will remain in existence as long as necessary to pay already accrued benefits) exists, the relevant circumstances shall be disclosed in all subsequent financial statements issued by the plan.

965 Plan Accounting—Health and Welfare Benefit Plans

205 Presentation of Financial Statements

00 Status

General Note:The Status Section identifies changes to this Subtopic resulting from Accounting Standards Updates. The Section provides references to the affected Codification content and links to the related Accounting Standards Updates. Nonsubstantive changes for items such as editorial, link and similar corrections are included separately in Maintenance Updates.

General

965-205-00-1 The following table identifies the changes made to this Subtopic.

Paragraph	Action	Accounting Standards Update	Date

05 Overview and Background

General Note: The Overview and Background Section provides overview and background material for the guidance contained in the Subtopic. It does not provide the historical background or due process. It may contain certain material that users generally consider useful to understand the typical situations addressed by the standards. The Section does not summarize the accounting and reporting requirements.

General

965-205-05-1 This Subtopic provides guidance on the presentation of financial statements for [health and welfare benefit plans](#).

> 401(h) Accounts

965-205-05-2 Employers may fund a portion of their postretirement medical-benefit obligations related to their health and welfare benefit plans through a health benefit account ([401\(h\) account](#)) in their defined benefit pension plans, subject to certain restrictions and limitations.

965-205-05-3 Funding can be accomplished through a qualified transfer of excess pension plan assets (as defined in Section 420 of the Internal Revenue Code) or through additional contributions to the 401(h) account by the employer, employees, or both. Any assets transferred to a 401(h) account in a qualified transfer of excess pension plan assets (and any income allocable thereto) must be used only to pay qualified current retiree health benefits for the taxable year of the transfer (whether directly or through reimbursement). Any assets transferred to the 401(h) account to pay retiree medical expenses in a qualified transfer of excess pension plan assets (and any income allocable thereto) that are not used during the year must be transferred out of the account to the transferor plan and treated as an employer reversion for purposes of a 20 percent excise tax on reversions. The Internal Revenue Code allows employers to allocate up to 25 percent of total contributions to the plan, subject to certain limitations, to the 401(h) account. If the full amount of these contributions is not used during the year, they may be accumulated for future retiree medical expenses in the 401(h) account. The deductibility of employer contributions to a 401(h) account is subject to separate limitations and, therefore, such contributions have no effect on the amount of deductible contributions an employer can make to fund pension benefits under the plan. The earnings on the 401(h) account are ignored for minimum funding purposes. Additionally, under the Code, qualified transfers are not treated as prohibited transactions for purposes of Section 4975.

965-205-05-4

The plan sponsor has discretion in making contributions to the 401(h) account. A pension or annuity plan may provide for payment of medical benefits for retired employees, their spouses, and their dependents if all of the following conditions are met:

- a. Benefits are subordinate (as defined in Section 401(h) of the Internal Revenue Code) to the retirement benefits provided by the plan.
- b. A separate account is established and maintained for such benefits.
- c. The employer's contributions to the separate account are reasonable and ascertainable.
- d. It is impossible, at any time before the satisfaction of all obligations under the plan to provide such benefits, for any part of the corpus or income of the separate account to be (within the taxable year or thereafter) used for or diverted to any purpose other than the providing of such benefits.
- e. Notwithstanding the provisions of certain Internal Revenue Code sections, upon satisfaction of all obligations under the plan to provide such benefits, any amount remaining in the separate account must, under the terms of the plan, be returned to the employer.
- f. In the case of an employee who is a key employee (as defined in Section 416(i)), a separate account is established and maintained for such benefits payable to such employee (and the spouse and dependents) and such benefits (to the extent attributable to plan years beginning after March 31, 1984, for which the employee is a key employee) are payable only to such employee (and the spouse and dependents) from that separate account.

965-205-05-5

The 401(h) assets may be used only to pay current retiree health benefits, which are obligations of a separate health and welfare benefit plan or health benefit arrangement. They may not be used to satisfy pension obligations. Although the assets may be invested together with assets that are available to pay pension benefits, a separate accounting must be maintained for all qualified transfers, contributions, distributions, expenses, and income earned thereon.

10 Objectives

i General Note: The Objectives Section provides the high-level objectives that the Subtopic is intended to accomplish or attain. The Section does not summarize or discuss the main principles of accounting and reporting requirements.

General

> Defined Benefit Health and Welfare Plans

965-205-10-1

The objective of financial reporting by [defined benefit health and welfare plans](#) is the same as that of defined benefit pension plans; both types of plans provide a determinable benefit. Accordingly, the primary objective of the financial statements of a defined benefit health and welfare plan is to provide financial information that is useful in assessing the plan's present and future ability to pay its benefit obligations when due. To accomplish that objective, a plan's financial statements shall provide information about all of the following:

- a. Plan resources and the manner in which the stewardship responsibility for those resources has been discharged
- b. Benefit obligations
- c. The results of transactions and events that affect the information about those resources and obligations
- d. Other factors necessary for users to understand the information provided.

> Defined Contribution Health and Welfare Plans

- 965-205-10-2** The objective of financial reporting by a [defined contribution health and welfare plan](#) is to provide financial information that is useful in assessing the plan's present and future ability to pay its benefits. To accomplish that objective, a plan's financial statements shall provide information about all of the following:
- a. Plan resources and the manner in which the stewardship responsibility for those resources has been discharged
 - b. The results of transactions and events that affect the information about those resources
 - c. Other factors necessary for users to understand the information provided. For example vacation, holiday, and legal are typical plans whose benefits are limited to the balance in the participant's accounts.

15 Scope and Scope Exceptions

i General Note: The Scope and Scope Exceptions Section outlines the items (for example, the entities, transactions, instruments, or events) to which the guidance in the Subtopic does or does not apply. In some cases, the Section may contain definitional or other text to frame the scope.

General

> Overall Guidance

- 965-205-15-1** This Subtopic follows the same Scope and Scope Exceptions as outlined in the Overall Subtopic, see Section [965-10-15](#).

20 Glossary

i General Note: The Master Glossary contains all terms identified as glossary terms throughout the Codification. Clicking on any term in the Master Glossary will display where the term is used. The Master Glossary may contain identical terms with different definitions, some of which may not be appropriate for a particular Subtopic. For any particular Subtopic, users should only use the glossary terms included in the particular Subtopic Glossary Section (Section 20).

401(h) Accounts

A postretirement medical-benefit component provided in some defined benefit pension plans in addition to the normal retirement benefits of the plan, pursuant to Section 401(h) of the Internal Revenue Code.

Accumulated Eligibility Credits

Plan participants may qualify for a benefit in which eligibility credits or hours accumulate and result in the plan covering payment of insurance premiums or benefits for a period of time for those participants who have accumulated a sufficient number of such credits or hours to be eligible for the credits. Eligible participants are provided with insurance coverage during periods of unemployment, when employer contributions to the plan would not otherwise provide coverage or benefits. The accumulated eligibility credits are sometimes referred to as bank of hours.

Benefits

The monetary or in-kind benefits or benefit coverage to which participants may be entitled under a pension plan or a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). Examples of benefits may include, but are not limited to, health care benefits, life insurance, legal, educational, and advisory services, pension benefits, disability benefits, death benefits, and benefits due to termination of employment.

Defined Benefit Plan

A defined benefit plan provides participants with a determinable benefit based on a formula provided for in the plan.

- a. **Defined benefit health and welfare plans**—Defined benefit health and welfare plans specify a determinable benefit, which may be in the form of a reimbursement to the covered plan participant or a direct payment to providers or third-party insurers for the cost of specified services. Such plans may also include benefits that are payable as a lump sum, such as death benefits. The level of benefits may be defined or limited based on factors such as age, years of service, and salary. Contributions may be determined by the plan's actuary or be based on premiums, actual claims paid, hours worked, or other factors determined by the plan sponsor. Even when a plan is funded pursuant to agreements that specify a fixed rate of employer contributions (for example, a collectively bargained multiemployer plan), such a plan may nevertheless be a defined benefit health and welfare plan if its substance is to provide a defined benefit.
- b. **Defined benefit pension plan**—A pension plan that defines an amount of pension benefit to be provided, usually as a function of one or more factors such as age, years of service, or compensation. Any pension plan that is not a [defined contribution](#) pension plan is, for purposes of Subtopic [715-30](#), a defined benefit pension plan.

c. Defined benefit postretirement plan—A plan that defines postretirement benefits in terms of monetary amounts (for example, \$100,000 of life insurance) or benefit coverage to be provided (for example, up to \$200 per day for hospitalization, or 80 percent of the cost of specified surgical procedures). Any postretirement benefit plan that is not a defined contribution postretirement plan is, for purposes of Subtopic 715-60, a defined benefit postretirement plan. (Specified monetary amounts and benefit coverage are collectively referred to as benefits.)

Defined Contribution Plan

A plan that provides an individual account for each participant and provides benefits that are based on all of the following: amounts contributed to the participant's account by the employer or employee; investment experience; and any forfeitures allocated to the account, less any administrative expenses charged to the plan.

- a. Defined contribution health and welfare plans—Defined contribution health and welfare plans maintain an individual account for each plan participant. They have terms that specify the means of determining the contributions to participants' accounts, rather than the amount of benefits the participants are to receive. The benefits a plan participant will receive are limited to the amount contributed to the participant's account, investment experience, expenses, and any forfeitures allocated to the participant's account. These plans also include flexible spending arrangements.
- b. Defined contribution postretirement plan—A plan that provides postretirement benefits in return for services rendered, provides an individual account for each plan participant, and specifies how contributions to the individual's account are to be determined rather than specifies the amount of benefits the individual is to receive. Under a defined contribution postretirement plan, the benefits a plan participant will receive depend solely on the amount contributed to the plan participant's account, the returns earned on investments of those contributions, and the forfeitures of other plan participants' benefits that may be allocated to that plan participant's account.

Fair Value

The price that would be received to sell an asset or paid to transfer a liability in an [orderly transaction](#) between [market participants](#) at the measurement date.

Health and Welfare Benefit Plans

Health and welfare benefit plans include plans that provide the following:

- a. Any of the following benefits:
 - 1. Medical, dental, visual, psychiatric, or long-term health care
 - 2. Life insurance (offered separately from a pension plan)
 - 3. Certain severance benefits
 - 4. Accidental death or dismemberment benefits.
- b. Benefits for unemployment, disability, vacations, or holidays
- c. Other benefits such as apprenticeships, tuition assistance, day care, dependent care, housing subsidies, or legal services.

Market Participants

Buyers and sellers in the principal (or most advantageous) market for the asset or liability that have all of the following characteristics:

- a. They are independent of each other, that is, they are not [related parties](#), although the price in a related-party transaction may be used as an input to a fair value measurement if the reporting entity has evidence that the transaction was entered into at market terms
- b. They are knowledgeable, having a reasonable understanding about the asset or liability and the transaction using all available information, including information that might be obtained through due diligence efforts that are usual and customary
- c. They are able to enter into a transaction for the asset or liability
- d. They are willing to enter into a transaction for the asset or liability, that is, they are motivated but not forced or otherwise compelled to do so.

Orderly Transaction

A transaction that assumes exposure to the market for a period before the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets or liabilities; it is not a forced transaction (for example, a forced liquidation or distress sale).

Plan Assets

Assets—usually stocks, bonds, and other investments (except certain insurance contracts as noted in paragraph [715-60-35-109](#))—that have been segregated and restricted (usually in a trust) to be used for a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). The amount of plan assets includes amounts contributed by the employer, and by plan participants for a contributory plan, and amounts earned from investing the contributions, less benefits, income taxes, and other expenses incurred. Plan assets ordinarily cannot be withdrawn by the employer except under certain circumstances when a plan has assets in excess of obligations and the employer has taken certain steps to satisfy existing obligations. Securities of the employer held by the plan are includable in plan assets provided they are transferable.

Assets not segregated in a trust, or otherwise effectively restricted, so that they cannot be used by the employer for other purposes are not plan assets, even though the employer may intend that those assets be used to provide health and welfare benefits, which may include postretirement benefits. Those assets shall be accounted for in the same manner as other employer assets of a similar nature and with similar restrictions. If a plan has liabilities other than for benefits, those nonbenefit obligations are considered as reductions of plan assets. Amounts accrued by the employer but not yet paid to the plan are not plan assets. If a trust arrangement explicitly provides that segregated assets are available to satisfy claims of creditors in bankruptcy, such a provision would effectively permit those assets to be used for other purposes at the discretion of the employer. It is not necessary to determine that a trust is bankruptcy-proof for the assets of the trust to qualify as plan assets. However, assets held in a trust that explicitly provides that such assets are available to the general creditors of the employer in the event of the employer's bankruptcy would not qualify as plan assets.

Related Parties

Related parties include:

- a. Affiliates of the entity
- b. Entities for which investments in their equity securities would be required, absent the election of the fair value option under the [Fair Value Option Subsection](#) of Section 825-10-15, to be accounted for by the equity method by the investing entity
- c. Trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management
- d. Principal owners of the entity and members of their immediate families
- e. Management of the entity and members of their immediate families
- f. Other parties with which the entity may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties

might be prevented from fully pursuing its own separate interests

g. Other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

45 Other Presentation Matters

General Note: The Other Presentation Matters Section provides guidance on other presentation matters not addressed in the Recognition, Initial Measurement, Subsequent Measurement, and Derecognition Sections. Other presentation matters may include items such as current or long-term balance sheet classification, cash flow presentation, earnings per share matters, and so forth. The FASB Codification also contains Presentation Topics, which provide guidance for general presentation and display items. See those Topics for general guidance.

General

> Defined Benefit Health and Welfare Plans

965-205-45-1 The financial statements of a [defined benefit health and welfare plan](#) prepared in accordance with generally accepted accounting principles (GAAP) shall be prepared on the accrual basis of accounting and include all of the following:

- a. A statement of net assets available for benefits as of the end of the plan year (see paragraphs [965-20-45-1 through 45-2](#))
- b. A statement of changes in net assets available for benefits for the year then ended (see paragraphs [965-20-45-3 through 45-4](#))
- c. Information regarding the plan's benefit obligations as of the end of the plan year (see Subtopic [965-30](#))
- d. Information regarding the effects, if significant, of certain factors affecting the year-to-year change in the plan's benefit obligations (see paragraphs [965-30-45-4 through 45-8](#)).

965-205-45-2 Information about the benefit obligations shall be presented in a separate statement, combined with other information on another financial statement, or disclosed in the notes to financial statements. Regardless of the format selected, the plan financial statements shall present the benefit obligations information in its entirety in the same location. The information shall be presented in such reasonable detail as is necessary to identify the nature and classification of the obligations. See Examples 1 through 3 (paragraphs [965-205-55-2 through 55-7](#)) for illustrative financial statements of [health and welfare benefit plans](#). (See paragraph [965-205-50-6](#).)

> Defined Contribution Health and Welfare Plans

- 965-205-45-3** The financial statements of a [defined contribution health and welfare plan](#) prepared in accordance with GAAP shall be prepared on the accrual basis of accounting and include both of the following:
- A statement of net assets available for benefits of the plan as of the end of the plan year (see Subtopic [965-30](#))
 - A statement of changes in net assets available for benefits of the plan for the year then ended (see paragraphs [965-20-45-3 through 45-4](#)).

- 965-205-45-4** Because a plan's obligation to provide [benefits](#) is limited to the amounts accumulated in an individual's account, information regarding benefit obligations is not applicable.

> Cash Flows

- 965-205-45-5** Paragraph [230-10-15-4](#) provides that employee benefit plans other than pension plans (such as health and welfare plans, both defined benefit and defined contribution) that provide information similar to that required by Topic [960](#) are not required to provide a statement of cash flows. However, that paragraph encourages inclusion of a statement of cash flows in the financial statements of an employee benefit plan if such a statement would provide relevant information about the ability of the plan to meet future obligations (for example, if the plan invests in assets that are not highly liquid or obtains financing for investments).

> 401(h) Accounts

- 965-205-45-6** Certain retiree health benefits may be funded through a [401\(h\) account](#) in a defined benefit pension plan, pursuant to Section 401(h) of the Internal Revenue Code. The 401(h) account assets and liabilities used to fund retiree health benefits, and the changes in those assets and liabilities, shall be reported in the financial statements of the health and welfare benefit plan.
- 965-205-45-7** The 401(h) account assets and liabilities and changes in them can be shown in the health and welfare benefit plan financial statements in either of the following ways:
- As a single line item on the face of the statements
 - Included in individual line items with separate disclosure in the notes to financial statements about the 401(h) amounts included in those individual line items.
- 965-205-45-8** If the assets and liabilities are shown as a single line item in the statement of net assets, the changes in net assets also shall be shown as a single line item in the statement of changes in net assets. If the assets and liabilities are included in individual asset and liability line items in the statement of net assets, the changes in individual 401(h) amounts shall be included in the changes in the individual line items in the statement of changes in net assets, with separate disclosure in the notes about the 401(h) amounts included in those individual line items. The 401(h) obligations shall be reported in the health and welfare benefit plan's statement of benefit obligations. Likewise, the health and welfare benefit plan's statement of changes in benefit obligations shall include claims paid through the 401(h) account.
- 965-205-45-9** Illustrative financial statements of a health and welfare benefit plan funded through a 401(h) account in a separate defined benefit pension plan are presented in Example 4 (see paragraph [965-205-55-8](#)).

> Employees' Beneficiary Association Trust

- 965-205-45-10** If the assets of more than one plan are held in a 501(c)(9) Voluntary Employees' Beneficiary Association trust, separate reports must be prepared for each plan. Some plans may pay only a portion of the plan's benefit payments and other expenses through the Association.

> Interests in Master Trusts

- 965-205-45-11** For each master trust in which a plan holds an interest, a plan shall present that interest and the change in that interest in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. See Section [965-325-50](#) for master trust disclosures.

50 Disclosure

General Note: The Disclosure Section provides guidance regarding the disclosure in the notes to financial statements. In some cases, disclosure may relate to disclosure on the face of the financial statements.

General

- 965-205-50-1** The plan's financial statements shall disclose other information as described in this Subtopic. Certain of the disclosures relate to plans with accumulated assets rather than those with trusts that act more as conduits for benefit payments or insurance premiums. Separate disclosures may be made to the extent that the plan provides both health and other welfare [benefits](#). The disclosures shall include, if applicable, all of the following:
- A brief, general description of the plan agreement, including, but not limited to, participants covered, vesting, and benefit provisions. If a plan agreement or a description thereof providing this information is otherwise published or made available, the description in the financial statement disclosures may be omitted, provided that a reference to the other source is made.
 - A description of significant plan amendments adopted during the period, as well as significant changes in the nature of the plan (for example, a plan spinoff or merger with another plan) and changes in actuarial assumptions.
 - The funding policy and any changes in the policy made during the plan year. If the benefit obligations exceed the net assets of the plan, the method of funding this deficit, as provided for in the plan agreement or collective bargaining agreement, also shall be disclosed. If significant plan administration or related costs are being borne by the employer, that fact shall be disclosed. For a contributory plan, the disclosure shall state the method of determining participants' contributions. For each year for which a year-end statement of net assets available for benefits is presented, the plan shall disclose a description of the portion of the plan's estimated cost of providing postretirement benefits funded by retiree contributions. The plan's estimated cost of postretirement benefits is the plan's expected claims cost for the year. It excludes benefit costs paid by Medicare and costs, such as deductibles and copayments, paid directly to the medical provider by participants. The portion of the plan's estimated cost that is funded by retiree contributions is determined at the beginning of the year based on the plan sponsor's cost-sharing policy. In determining that amount, the retirees' required contribution for the year shall be reduced by any amounts intended to recover a shortfall (or increased by amounts intended to compensate for an overcharge) in attaining the desired cost-sharing in prior year(s). If the plan terms provide

that a shortfall in attaining the intended cost sharing in the prior year(s) is to be recovered by increasing the retiree contribution in the current year, that incremental contribution shall be separately disclosed. Similarly, if the plan terms provide that participant contributions in the current year are to be reduced by the amount by which participant contributions in the prior year exceeded the amount needed to attain the desired cost-sharing, the resulting reduction in the current year contribution shall be separately disclosed. The information about retiree contributions shall be provided for each significant group of retired participants to the extent their contributions differ.

d. The federal income tax status of the plan.

e. The policy regarding the purchase of contracts with insurance entities that are excluded from [plan assets](#). Consideration should be given to disclosing the type and extent of insurance coverage, as well as the extent to which risk is transferred (for example, coverage period and claims reported or claims incurred).

f. The amounts and types of securities of the employer and related parties included in plan assets, and the approximate amount of future annual benefits of plan participants covered by insurance contracts issued by the employer and related parties.

g. Significant real estate or other transactions in which the plan and any of the following parties are jointly involved:

1. The sponsor
2. The plan administrator
3. Employers
4. Employee organizations.

h. Unusual or infrequent events or transactions occurring after the financial statement date, but before the financial statements are issued or are available to be issued (as discussed in [Section 855-10-25](#)), that might significantly affect the usefulness of the financial statements in an assessment of the plan's present and future ability to pay benefits. For example, all of the following shall be disclosed:

1. A plan amendment adopted after the latest financial statement date that significantly increases future benefits attributable to an employee's service rendered before that date
2. A significant change in the fair value of a significant portion of the plan's assets
3. The emergence of a catastrophic claim.

If reasonably determinable, the effects of such events or transactions shall be disclosed. If such effects are not reasonably determinable, the reasons why they are not quantifiable shall be disclosed.

i. Any of the following commitments or contingencies:

1. Material lease commitments
2. Other commitments
3. Contingent liabilities.

j. The assumed health care cost-trend rate(s) used to measure the expected cost of benefits covered by the plan for the next year, including both of the following:

1. A general description of the direction and pattern of change in the assumed trend rates thereafter
2. The ultimate trend rate(s) and when that rate is expected to be achieved.

k. For [health and welfare benefit plans](#) providing postretirement health care benefits, the effect of a one-percentage-point increase in the assumed health care cost-trend rates for each future year on the postretirement benefit obligation

- l. Any modification of the existing cost-sharing provisions that are encompassed by the substantive plan(s) and the existence and nature of any commitment to increase monetary benefits provided by the plan and their effect on the plan's financial statements.
- m. Termination provisions of the plan and priorities for distribution of assets, if applicable.
- n. Restrictions, if any, on plan assets (for example, legal restrictions on multiple trusts)
- o. For a defined contribution health and welfare plan, the accounting policy for, and the amount and disposition of, forfeited nonvested accounts. Specifically, identification of whether those amounts will be used to reduce future employer contributions, employer expenses, or will be allocated to participants' accounts.

> 401(h) Accounts

- 965-205-50-2** See paragraphs [965-205-45-6 through 45-8](#) for disclosure requirements for [401\(h\) account](#) assets and liabilities and the changes thereto if such information is not presented separately in the financial statements. The notes to financial statements shall disclose the significant components of net assets and changes in net assets of the 401(h) account.
- 965-205-50-3** If retiree health benefit obligations are funded partially through a 401(h) account of the defined benefit pension plan, the plan shall also disclose the fact that the assets are available only to pay retiree health benefits. The notes to financial statements shall disclose the significant components of net assets and changes in net assets of the 401(h) account. Additionally, the notes shall include a reconciliation of amounts reported in the financial statements to the amounts reported in the Form 5500 of the Internal Revenue Service (IRS).
- 965-205-50-4** Because the Employee Retirement Income Security Act requires 401(h) accounts to be reported as assets of the pension plan, a reconciliation of the net assets reported in the financial statements to those reported in the Form 5500 is required for the health and welfare benefit plan.
- 965-205-50-5** A plan is not required to provide investment disclosures (for example, the disclosures required by Topic [815](#) on derivatives and hedging and Topic [820](#) on fair value measurement) for 401(h) account assets. A plan shall disclose the name of the defined benefit pension plan that allocated the funds to the health and welfare benefit plan and that provides the related investment disclosures.

> Defined Benefit Health and Welfare Plans

- 965-205-50-6** Information about the benefit obligations shall be presented in a separate statement, combined with other information on another financial statement, or disclosed in the notes to financial statements. Regardless of the format selected, the plan financial statements shall present the benefit obligations information in its entirety in the same location. The information shall be presented in such reasonable detail as is necessary to identify the nature and classification of the obligations. See Examples 1 through 3 (paragraphs [965-205-55-2 through 55-7](#)) for illustrative financial statements of [health and welfare benefit plans](#). (See paragraph [965-205-45-2](#).)

55 Implementation Guidance and Illustrations

General Note: The Implementation Guidance and Illustrations Section contains implementation guidance and illustrations that are an integral part of the Subtopic. The implementation guidance and illustrations do not address all possible variations. Users must consider carefully the actual facts and circumstances in relation to the requirements of the Subtopic.

General

> Illustrations

965-205-55-1 This Section illustrates certain applications of the provisions of this Subtopic. It does not illustrate other provisions of this Subtopic that might apply in circumstances other than those assumed in these Examples. It also does not illustrate all disclosures required for a fair presentation in conformity with generally accepted accounting principles (GAAP). The formats presented and the wording of the accompanying notes are illustrative and are not necessarily the only possible presentations.

· > Example 1: Multiemployer Defined Benefit Health and Welfare Plan—Retirees Contribute a Portion of Medical Coverage Cost

965-205-55-2 This Example illustrates the guidance in paragraphs [965-205-10-1](#) and [965-205-45-1 through 45-2](#).

965-205-55-3 The plan in this Example pays all [benefits](#) directly from [plan assets](#). It is assumed that the plan provides health benefits and life insurance coverage to both active and retired participants. This Example also assumes that the plan provides long-term disability benefits and limited coverage during periods of unemployment based on [accumulated eligibility credits](#).

Allied Industries Health Care Benefit Plan Notes to Financial Statements

NOTE 1: DESCRIPTION OF PLAN

The following description of the Allied Industries Benefit Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General. The Plan provides health and other benefits covering all participants in the widgets industry in the Greater Metropolis area. The Plan and related trust were established on May 8, 1966, pursuant to a collective bargaining agreement between the Allied Employers' Trade Association and the Allied Union, Local 802. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended.

Benefits. The Plan provides health benefits (medical, hospital, surgical, major medical, and dental), permanent disability benefits, and death benefits to full-time participants (with at least 450 hours of work in the industry during a consecutive 3-month period) and to their beneficiaries and covered dependents. Retired employees are entitled to similar health benefits (in excess of Medicare coverage) provided they have attained at least age 62 and have 15 years of service with participating employers before retirement.

The Plan also provides health benefits to participants during periods of unemployment, provided they have accumulated in the current year or in prior years credit amounts (expressed in hours) in excess of the hours required for current coverage. Accumulated eligibility credits equal to one year's coverage may be carried forward.

Health, disability, and death claims of active and retired participants, dependents, and beneficiaries are processed by the Administrator Group, but the responsibility for payments to participants and providers is retained by the Plan.

In 20X2 the board of trustees amended the Plan to increase the deductible under major medical coverage from \$100 to \$300 and to extend dental coverage to employees retiring after December 31, 20X2. The amendment will not affect participating employers' contributions to the Plan in 20X3 under the current collective bargaining agreement.

Contributions. Participating employers contribute 5.5 percent of wages pursuant to the current collective bargaining agreement between employers and the union (expiring February 19, 20X5). Employees may contribute specified amounts, determined periodically by the Plan's actuary, to extend coverage to eligible dependents. The costs of the postretirement benefit plan are shared by the Plan's participating employers and retirees. In addition to deductibles and copayments, participant contributions in the current (and prior, if applicable) year were as follows.

<u>Participants Retiring</u>	<u>20X1 Retiree Contribution</u>	<u>20X0 Retiree Contribution</u>
(1) Pre-1990	(1) None	(1) None
(2) 1990–1994	(2) Retirees contribute 20% of estimated cost of providing their postretirement benefits ^(a)	(2) Retirees contribute 20% of estimated cost of providing their postretirement benefits
(3) 1995–1999	(3) Retirees pay the cost of providing their postretirement benefits in excess of \$200 per month cap (approximately 60% of the estimated cost)	(3) Retirees pay the cost of providing their postretirement benefits in excess of \$200 per month cap (approximately 50% of the estimated cost)
(4) 2000 and after	(4) Retirees pay 100% of estimated cost of providing their postretirement benefits	(4) Retirees pay 100% of estimated cost of providing their postretirement benefits

(a) Excluding \$15 per month per capita increase in 20X1 due to adverse claims experience in 20X0.

Other. The Plan's board of trustees, as Sponsor, has the right under the Plan to modify the benefits provided to active employees. The Plan may be terminated only by joint agreement between industry and union, subject to the provisions set forth in the Employee Retirement Income Security Act.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

A. Valuation of Investments. The Plan's investments are stated at **fair value** less costs to sell, if significant. Securities traded on the national securities exchange are valued at the last reported sales price on the last business day of the plan year. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average

of the last reported bid and asked prices. The Plan also holds certain corporate bonds that do not have an observable price. These bonds have maturities ranging from 5 to 7 years, and a weighted average coupon rate of 9 percent. The Plan's board of trustees has measured fair value for these bonds using an income approach that discounts contractual cash flows at a weighted average yield of 12 percent, which is based on yields currently available on comparable securities of issuers with similar credit ratings.

B. Postretirement Benefits. The amount reported as the postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed by the terms of the plan to employees' service rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from current plan participants. Postretirement benefits include future benefits expected to be paid to or for both of the following:

- a. Currently retired or terminated employees and their beneficiaries and dependents
- b. Active employees and their beneficiaries and dependents after retirement from service with participating employers.

The postretirement benefit obligation represents the amount that is to be funded by contributions from the plan's participating employers and from existing plan assets. Before an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service in the industry rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

For measurement purposes, a 9.5 percent annual rate of increase in the per capita cost of covered health care benefits was assumed for 20X3; the rate was assumed to decrease gradually to 8.0 percent for 20X8 and to remain at that level thereafter. These assumptions are consistent with those used to measure the benefit obligation at December 31, 20X1.

The following were other significant assumptions used in the valuations as of December 31, 20X2 and 20X1.

Weighted-average discount rate	8.0%—20X2; 8.25%—20X1
Average retirement age	60
Mortality	1971 Group Annuity Mortality Table

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

C. Other Plan Benefits. Plan obligations at December 31 for health claims incurred by active participants but not reported at that date, for accumulated eligibility of participants, and for future disability payments to members considered permanently disabled at December 31 are estimated by the Plan's actuary in accordance with accepted actuarial principles. Such estimated amounts are reported in the accompanying statement of the Plan's benefit obligations at present value, based on an 8.0 percent discount rate. Health claims incurred by retired participants but not reported at year end are included in the postretirement benefit obligation.

NOTE 3: INVESTMENTS

The Plan's investments are held by a bank-administered trust fund. (See paragraph [962-325-55-17](#) for a detailed Example of plan investment disclosures.)

NOTE 4: BENEFIT OBLIGATIONS

The Plan's deficiency of net assets over benefit obligations at December 31, 20X2, and 20X1, relates primarily to the postretirement benefit obligation, the funding of which is not covered by the contribution rate provided by the current bargaining agreement. It is expected that the deficiency will be funded through future increases in the collectively bargained contribution rates.

The weighted-average health care cost-trend rate assumption (see note 2B) has a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by one percentage point in each year, it would increase the obligation as of December 31, 20X2, and 20X1, by \$2,600,000 and \$2,500,000, respectively.

NOTE 5: OTHER MATTERS

The trust established under the Plan to hold the Plan's assets is qualified pursuant to Section 501(c)9 of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service (IRS), and the Plan sponsor believes that the Plan, as amended, continues to qualify and to operate as designed.

· > Example 2: Single Employer Plan-Displays Benefit Obligation Information on Face of Financial Statements

965-205-55-5 This Example illustrates the guidance in paragraphs [965-205-10-1](#) and [965-205-45-1 through 45-2](#).

965-205-55-6 The plan in this Example obtains insurance for current benefits from its assets and provides health benefits and life insurance coverage to both active and retired participants.

Classic Enterprises Benefit Plan Notes to Financial Statements

NOTE 1: DESCRIPTION OF PLAN

The following description of the Classic Enterprises Benefit Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General. The Plan provides health and death benefits covering substantially all active and retired employees of Classic Enterprises (the Sponsor). It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended.

Benefits. The Plan provides health benefits (medical, hospital, surgical, major medical, and dental) and death benefits to full-time employees of the Sponsor (with at least 1,000 hours of service each year) and to their beneficiaries and covered dependents. Retired employees are entitled to similar health and death benefits provided they have attained at least age 55 and have at least 10 years of service with the Sponsor.

Current health claims of active and retired participants and their dependents and beneficiaries are provided under group insurance contracts with ABC Carrier, which are experience rated after the anniversary dates of the policies (generally March 31). Death benefits are covered by a group-term policy with DEF Carrier.

Contributions. The Sponsor's policy is to contribute the maximum amounts allowed as a tax deduction by the Internal Revenue Code. Under present law, the Sponsor is not permitted to deduct amounts for future benefits to current employees and retirees.

Employees and retirees may contribute specified amounts, determined periodically by the Plan's insurance companies, to extend coverage to eligible dependents.

In 20X2 the Plan was amended to increase the deductible under major medical coverage from \$100 to \$300 and to extend dental coverage to employees retiring after December 31, 20X2. The amendment is not expected to significantly affect the Sponsor's contribution to the Plan in 20X3.

Other. Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to modify the benefits provided to active employees, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions set forth in the Employee Retirement Income Security Act.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Valuation of Investments. The Plan's investments are stated at fair value. Securities traded on the national securities exchange are valued at the last reported sales price on the last business day of the plan year. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and asked prices. The Plan also holds certain corporate bonds that do not have an observable price. These bonds have maturities ranging from 5 to 7 years, and a weighted average coupon rate of 9 percent. The Classic Enterprises Benefits Committee has measured fair value for these bonds using an income approach that discounts contractual cash flows at a weighted average yield of 12 percent, which is based on yields currently available on comparable securities of issuers with similar credit ratings.

B. Plan Benefits. The postretirement benefit obligation (see note 4) represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered to December 31. Postretirement benefits include future benefits expected to be paid to or for both of the following:

- 1. Currently retired employees and their beneficiaries and dependents
- 2. Active employees and their beneficiaries and dependents after retirement from service with the Sponsor.

Before an active employee's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributed to that employee's service rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims-cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment, and to reflect the portion of those costs expected to be borne by Medicare, the retired participants, and other providers.

For measurement purposes at December 31, 20X2, a 9.5 percent annual rate of increase in the per capita cost of covered health care benefits was assumed for 20X3; the rate was assumed to decrease gradually to 8.0 percent for 20X8 and to remain at that level thereafter. These assumptions are consistent with those used to measure the benefit obligation at December 31, 20X1.

The following were other significant assumptions used in the valuations as of December 31, 20X2, and 20X1.

Weighted-average discount rate	8.0%
Average retirement age	60
Mortality	1971 Group Annuity Mortality Table

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

NOTE 3: INVESTMENTS

The Plan's investments are held by a bank-administered trust fund. (See paragraph [962-325-55-17](#) for a detailed Example of plan investment disclosures.)

NOTE 4: BENEFIT OBLIGATIONS

Health costs incurred by participants and their beneficiaries and dependents are covered by insurance contracts maintained by the Plan. It is the present intention of the Sponsor and the Plan to continue obtaining insurance coverage for benefits. As stated in note 1, the Sponsor is not permitted under present tax law to deduct amounts for future benefits (beyond one year). Insurance premiums for future years in respect of the Plan's postretirement benefit obligation will be funded by Sponsor contributions to the Plan in those later years.

The postretirement benefit obligation at December 31, 20X2, and 20X1, principally health benefits, related to the following categories of participants (including their beneficiaries and dependents).

	20X2	20X1
Current retirees	\$ 3,900,000	\$ 3,500,000
Other participants fully eligible for benefits	2,100,000	2,000,000
Participants not yet fully eligible for benefits	5,000,000	4,165,000
	<u>\$ 11,000,000</u>	<u>\$ 9,665,000</u>

The health care cost-trend rate assumption (see note 2B) has a significant effect on the amounts reported. If the assumed rates increased by one percentage point in each year, that would increase the obligation as of December 31, 20X2, and 20X1, by \$2,600,000 and \$2,500,000, respectively.

NOTE 5: OTHER MATTERS

The trust established under the Plan to hold the Plan's net assets is qualified pursuant to Section 501(c)9 of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Sponsor has obtained a favorable tax determination letter from the Internal Revenue Service and the Sponsor believes that the Plan, as amended, continues to qualify and to operate as designed.

End of Year	<u>\$ 11,465</u>

The accompanying notes are an integral part of the financial statements.

Supplemental Unemployment Benefit Plan for Employees of ABC Company Established Pursuant to Agreement With United Workers of America Notes to Financial Statements

NOTE 1: DESCRIPTION OF PLAN

In connection with a negotiated contract, the Supplemental Unemployment Benefit Plan for Employees of ABC Company Established Pursuant to Agreement with United Workers of America

(the Plan) provides for payment of supplemental unemployment benefits to covered employees who have completed two years of continuous service. Payments are made to both of the following:

- a. Employees on layoff
- b. Certain employees who work less than 32 hours in any week.

The following description is provided for general information purposes. The Plan document should be referred to for specific information regarding benefits and other Plan matters.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation. The Plan's investments consist of shares of a money market portfolio. The investments are reported at fair value.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Benefit Obligations. The Plan's obligation for accumulated eligibility credits is discounted using a weighted-average assumed rate of 7.5 percent.

NOTE 3: FUNDING AND OPERATION OF THE PLAN

Funding of the Plan. Contributions funded by ABC Company, the Plan's sponsor, pursuant to the Plan are invested in assets held in a trust fund (the Fund). General Bank, the trustee of the Fund (the Trustee), invests the Fund's money as set forth in the Plan document. Investments consist of money market funds and are reported in the accompanying financial statements at fair value. Interest income from investments is recognized when earned.

The ABC Company Benefit Plan Administrative Committee has responsibility for administering the Plan. The ABC Company Benefit Plan Asset Review Committee has responsibility for the management and control of the assets of the Trust.

Benefits Under the Plan. The Plan provides for the payment of weekly and short-week supplemental unemployment benefits. The benefits payable are reduced by any state unemployment benefits or any other compensation received. Also, a waiting-week benefit of \$100 will be payable if a participant fails to receive a state unemployment benefit solely because of the state's waiting-week requirement. Benefits paid for any week for which the employee received state unemployment benefits are limited to \$180. Benefits paid for all other weeks are limited to \$235. The Plan provides for a possible reduction of weekly benefits for employees with less than 20 years of service based on a percentage determined generally by dividing the net assets of the Plan, as defined in the Plan document, by the "maximum financing" (see "ABC's Obligations Under the Plan"). Employees earn one-half credit unit for each week in which hours are worked or, in some situations, in which hours are not worked (vacation, disability, serving on grievance committee, and so on) up to a maximum of 52 credit units for employees with less than 20 years of service and 104 credit units for employees with 20 or more years of service. Generally, one credit unit is cancelled for each weekly benefit paid and one-half credit unit is cancelled for each short-week benefit paid.

ABC's Obligations Under the Plan. The "maximum financing" of the Plan at any month end is the lesser of the following:

- a. The product of \$.40 and the number of hours worked by covered employees during the first 12 of the 14 months next preceding the first day of the month
- b. 100 times the sum of the monthly benefits paid for the 60 of the preceding 62 months divided by 60.

ABC's monthly contribution to the Plan is computed as the lesser of the following:

- a. The product of \$.175 and the number of hours worked by covered employees in the month

b. The amount that, when added to the net assets of the Plan, as defined by the Plan document, as of the end of the preceding month, will equal the "maximum financing." In addition, ABC contributes an income security contribution of \$.25 per hour worked by covered employees in the month. In the event of a plan deficit, ABC intends to make sufficient contributions to fund benefits as they become payable.

The following tables present the components of the plan's benefit obligations and the related changes in the plan's benefit obligations.

Benefit Obligations		
December 31, 20X1 and 20X0		
	20X1	20X0
Accumulated eligibility credits and total benefit obligations	<u>\$ 1,107,777</u>	<u>\$ 1,095,620</u>
Changes in Benefit Obligations		
Year Ended December 31, 20X1		
Benefit obligations, beginning of year	\$ 1,095,620	
Benefits earned	1,390,330	
Interest	77,287	
Claims paid	<u>(1,455,460)</u>	
Benefit obligations, end of year	<u>\$ 1,107,777</u>	

Plan Expenses. ABC bears all administrative costs, except trustee fees, that are paid by the Plan.

NOTE 4: TAX STATUS

The Plan obtained its latest determination letter in 1990, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. Plan management and Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 5: TRANSACTIONS WITH PARTIES IN INTEREST

ABC provides to the Plan certain accounting and administrative services for which no fees are charged.

NOTE 6: TERMINATION OF THE PLAN

Under certain conditions, the Plan may be terminated. Upon termination, the assets then remaining shall be subject to the applicable provisions of the Plan then in effect and shall be used until exhausted to pay benefits to employees in the order of their entitlement.

The accompanying notes are an integral part of the financial statements.

Notes to Financial Statements

A. 401(h) Account

Effective January 1, 19X0, the [Company's defined benefit pension plan] was amended to include a medical-benefit component in addition to normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code. A separate account has been established and maintained in the [defined benefit pension plan] for such contributions. In accordance with Internal Revenue Code Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. The related obligations for health benefits are not included in the [defined benefit pension plan's] obligations in the statement of accumulated plan benefits but are reported as obligations in the financial statements of the [health and welfare benefit plan].

E. 401(h) Account

A portion of the Plan's obligations are funded through contributions to the Company's [defined benefit pension plan] in accordance with Internal Revenue Code Section 401(h). The following table presents the components of the net assets available for such obligations and the related changes in net assets available.

	December 31, 20X1	20X0
Investments at fair value:		
U.S. government securities	\$ 14,000	\$ 150,000
Money market fund	900,000	800,000
	<u>1,040,000</u>	<u>950,000</u>
Cash	20,000	10,000
Employer's contribution receivable ^(a)	20,000	15,000
Accrued interest	7,000	6,000
Total assets	<u>1,087,000</u>	<u>981,000</u>
Accrued administrative expenses	(15,000)	(15,000)
Net assets available	<u>\$ 1,072,000</u>	<u>\$ 966,000</u>

(a) A receivable from the employer must meet the requirements of paragraphs 960-310-25-1 through 25-2.

	For the Year Ended December 31, 20X1
Net appreciation in fair value of investments:	\$ 10,800
Interest	80,200
	91,000
Employer contributions	40,000
Health and welfare benefits paid to retirees	(10,000)
Administrative expenses	(15,000)
Net increase in net assets available	\$ 106,000

H. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500.

Net assets available for benefits per the financial statements	\$ 9,557,000
Claims payable	(1,200,000)
Net assets held in defined benefit plan-401(h) account	(1,072,000)
Net assets available for benefits per Form 5500	\$ 7,285,000

The following is a reconciliation of claims paid per the financial statements and net investment income related to the changes in the investments of the 401(h) assets to the Form 5500.

Claims paid per the financial statements	\$ 16,770,000
Add: Amounts payable at December 31, 20X1	1,200,000
Less: Amounts payable at December 31, 20X0	(1,050,000)
Claims paid per Form 5500	\$ 16,920,000
Net investment income per the financial statements	\$ 835,000
Less: Net investment income related to the changes in the investments of the 401(h) assets	91,000
Net investment income per Form 5500	\$ 744,000

05 Overview and Background

General Note: The Overview and Background Section provides overview and background material for the guidance contained in the Subtopic. It does not provide the historical background or due process. It may contain certain material that users generally consider useful to understand the typical situations addressed by the standards. The Section does not summarize the accounting and reporting requirements.

General

965-310-05-1 This Subtopic provides guidance on receivables for [health and welfare benefit plans](#).

15 Scope and Scope Exceptions

General Note: The Scope and Scope Exceptions Section outlines the items (for example, the entities, transactions, instruments, or events) to which the guidance in the Subtopic does or does not apply. In some cases, the Section may contain definitional or other text to frame the scope.

General Note for Financial Instruments: Some of the items subject to the guidance in this Subtopic are [financial instruments](#). For guidance on matters related broadly to all financial instruments, (including the fair value option, accounting for registration payment arrangements, and broad financial instrument disclosure requirements), see Topic [825](#). See Section [825-10-15](#) for guidance on the scope of the Financial Instruments Topic.

General

> Overall Guidance

965-310-15-1 This Subtopic follows the same Scope and Scope Exceptions as outlined in the Overall Subtopic, see Section [965-10-15](#).

20 Glossary

General Note: The Master Glossary contains all terms identified as glossary terms throughout the Codification. Clicking on any term in the Master Glossary will display where the term is used. The Master Glossary may contain identical terms with different definitions, some of which may not be appropriate for a particular Subtopic. For any particular Subtopic, users should only use the glossary terms included in the particular Subtopic Glossary Section (Section 20).

Contributions Receivable

Contributions receivable are the amounts due, as of the date of the financial statements, to the plan from employers, participants, and other sources of funding (for example, state subsidies or federal grants). They include amounts due pursuant to firm commitments, as well as legal or contractual requirements.

Health and Welfare Benefit Plans

Health and welfare benefit plans include plans that provide the following:

- a. Any of the following benefits:
 1. Medical, dental, visual, psychiatric, or long-term health care
 2. Life insurance (offered separately from a pension plan)
 3. Certain severance benefits
 4. Accidental death or dismemberment benefits.
- b. Benefits for unemployment, disability, vacations, or holidays
- c. Other benefits such as apprenticeships, tuition assistance, day care, dependent care, housing subsidies, or legal services.

Plan Assets

Assets—usually stocks, bonds, and other investments (except certain insurance contracts as noted in paragraph 715-60-35-109)—that have been segregated and restricted (usually in a trust) to be used for a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). The amount of plan assets includes amounts contributed by the employer, and by plan participants for a contributory plan, and amounts earned from investing the contributions, less benefits, income taxes, and other expenses incurred. Plan assets ordinarily cannot be withdrawn by the employer except under certain circumstances when a plan has assets in excess of obligations and the employer has taken certain steps to satisfy existing obligations. Securities of the employer held by the plan are includable in plan assets provided they are transferable.

Assets not segregated in a trust, or otherwise effectively restricted, so that they cannot be used by the employer for other purposes are not plan assets, even though the employer may intend that those assets be used to provide health and welfare benefits, which may include postretirement benefits. Those assets shall be accounted for in the same manner as other employer assets of a similar nature and with similar restrictions. If a plan has liabilities other than for benefits, those nonbenefit obligations are considered as reductions of plan assets. Amounts accrued by the employer but not yet paid to the plan are not plan assets. If a trust arrangement explicitly provides that segregated assets are available to satisfy claims of creditors in bankruptcy, such a provision would effectively permit those assets to be used for other purposes at the discretion of the employer. It is not necessary to determine that a trust is bankruptcy-proof for the assets of the trust to qualify as plan assets. However, assets held in a trust that explicitly provides that such assets are available to the general creditors of the employer in the event of the employer's bankruptcy would not qualify as plan assets.

25 Recognition

i General Note: The Recognition Section provides guidance on the required criteria, timing, and location (within the financial statements) for recording a particular item in the financial statements. Disclosure is not recognition.

i General Note for Fair Value Option: Some of the items subject to the guidance in this Subtopic may qualify for application of the Fair Value Option Subsections of Subtopic [825-10](#). Those Subsections (see paragraph [825-10-05-5](#)) address circumstances in which entities may choose, at specified election dates, to measure eligible items at fair value (the fair value option). See Section [825-10-15](#) for guidance on the scope of the Fair Value Option Subsections of the Financial Instruments Topic.

General

> Employer Contributions

- 965-310-25-1** With respect to employers' contributions recognized pursuant to a formal commitment, evidence of such a commitment may include any of the following:
- A resolution by the employer's governing body approving a specified contribution
 - A consistent pattern of making payments after the end of the plan year, pursuant to an established funding policy that attributes such subsequent payments to the preceding plan year
 - A deduction of a contribution for federal income tax purposes for periods ending on or before the financial statement date
 - The employer's recognition as of the financial statement date of a contribution payable to the plan. The existence of an accrued liability in the employer's statement of financial position or a plan's benefit obligations exceeding its net assets available for benefit obligations does not, by itself, provide sufficient support for recognition of a contribution receivable by the plan.

> Premiums Paid to Insurance Entities

- 965-310-25-2** Whether a premium paid to an insurance entity represents payment for the transfer of risk or merely represents a deposit will depend on the circumstances of the arrangement. The nature of payments made to an insurance entity shall be analyzed to determine the extent to which financial risk has been transferred from the plan to the insurance entity. Insurance entities may require that a deposit be maintained that can be applied against possible future losses in excess of current premiums. See Subtopic [340-30](#) for additional guidance on accounting for payments to insurance entities.
- 965-310-25-3** These deposits shall be reported as [plan assets](#) until such amounts are used to pay premiums. Similarly, premium stabilization reserves, which exist when premiums paid to an insurance entity exceed the total of claims paid and other charges, are held by an insurance entity and used to reduce future premium payments. Premium stabilization reserves generally shall be reported as assets of the plan until such amounts are used to pay premiums. If such reserves are forfeitable when the insurance contract terminates, this possibility shall be considered in recognizing this asset. In the case of experience-rating refunds, and in cases when the policy year does not coincide with the plan's fiscal year, the refund due as of the financial statement date shall be reported as a plan asset if it is probable that a refund is due and the amount can be reasonably estimated.

35 Subsequent Measurement

- i General Note:** The Subsequent Measurement Section provides guidance on an entity's subsequent measurement and subsequent recognition of an item. Situations that may result in subsequent changes to carrying amount include impairment, credit losses, fair value adjustments, depreciation and amortization, and so forth.

General

965-310-35-1 [Contributions receivable](#) shall include an allowance for estimated uncollectible amounts.

40 Derecognition

- i General Note:** The Derecognition Section provides guidance on determining whether and when an entity should remove an item from the financial statements. For example, the entity would derecognize an asset because it no longer has rights to the asset or it would derecognize a liability because it no longer has any obligation.

General

965-310-40-1 Service providers may require that deposits by the plan be applied against claims paid on behalf of plan participants. Such deposits shall be reported as [plan assets](#) until the deposit is applied against paid claims.

45 Other Presentation Matters

General Note: The Other Presentation Matters Section provides guidance on other presentation matters not addressed in the Recognition, Initial Measurement, Subsequent Measurement, and Derecognition Sections. Other presentation matters may include items such as current or long-term balance sheet classification, cash flow presentation, earnings per share matters, and so forth. The FASB Codification also contains Presentation Topics, which provide guidance for general presentation and display items. See those Topics for general guidance.

General

965-310-45-1 [Contributions receivable](#) shall be separately identified.

50 Disclosure

General Note: The Disclosure Section provides guidance regarding the disclosure in the notes to financial statements. In some cases, disclosure may relate to disclosure on the face of the financial statements.

General

965-310-50-1 Disclosure of the nature of payments made to insurance entities shall be made for both of the following:

- a. Deposits required to be maintained to be applied against future losses in excess of current premiums
- b. Premium stabilization reserves.

965-310-50-2 If the amount of the refund due from an insurance entity for experience-rating cannot be reasonably estimated, that fact shall be disclosed.

05 Overview and Background

General Note:The Overview and Background Section provides overview and background material for the guidance contained in the Subtopic. It does not provide the historical background or due process. It may contain certain material that users generally consider useful to understand the typical situations addressed by the standards. The Section does not summarize the accounting and reporting requirements.

General

965-320-05-1

This Subtopic provides guidance on debt and equity securities investments for [health and welfare benefit plans](#).

15 Scope and Scope Exceptions

General Note: The Scope and Scope Exceptions Section outlines the items (for example, the entities, transactions, instruments, or events) to which the guidance in the Subtopic does or does not apply. In some cases, the Section may contain definitional or other text to frame the scope.

General Note for Financial Instruments: Some of the items subject to the guidance in this Subtopic are [financial instruments](#). For guidance on matters related broadly to all financial instruments, (including the fair value option, accounting for registration payment arrangements, and broad financial instrument disclosure requirements), see Topic [825](#). See Section [825-10-15](#) for guidance on the scope of the Financial Instruments Topic.

General

> Overall Guidance

965-320-15-1 This Subtopic follows the same Scope and Scope Exceptions as outlined in the Overall Subtopic, see Section [965-10-15](#).

20 Glossary

General Note: The Master Glossary contains all terms identified as glossary terms throughout the Codification. Clicking on any term in the Master Glossary will display where the term is used. The Master Glossary may contain identical terms with different definitions, some of which may not be appropriate for a particular Subtopic. For any particular Subtopic, users should only use the glossary terms included in the particular Subtopic Glossary Section (Section 20).

Fair Value

The price that would be received to sell an asset or paid to transfer a liability in an [orderly transaction](#) between [market participants](#) at the measurement date.

Health and Welfare Benefit Plans

Health and welfare benefit plans include plans that provide the following:

- a. Any of the following benefits:
 1. Medical, dental, visual, psychiatric, or long-term health care
 2. Life insurance (offered separately from a pension plan)
 3. Certain severance benefits
 4. Accidental death or dismemberment benefits.
- b. Benefits for unemployment, disability, vacations, or holidays
- c. Other benefits such as apprenticeships, tuition assistance, day care, dependent care, housing subsidies, or legal services.

Market Participants

Buyers and sellers in the principal (or most advantageous) market for the asset or liability that have all of the following characteristics:

- a. They are independent of each other, that is, they are not [related parties](#), although the price in a related-party transaction may be used as an input to a fair value measurement if the reporting entity has evidence that the transaction was entered into at market terms
- b. They are knowledgeable, having a reasonable understanding about the asset or liability and the transaction using all available information, including information that might be obtained through due diligence efforts that are usual and customary
- c. They are able to enter into a transaction for the asset or liability
- d. They are willing to enter into a transaction for the asset or liability, that is, they are motivated but not forced or otherwise compelled to do so.

Orderly Transaction

A transaction that assumes exposure to the market for a period before the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets or liabilities; it is not a forced transaction (for example, a forced liquidation or distress sale).

Related Parties

Related parties include:

- a. Affiliates of the entity
- b. Entities for which investments in their equity securities would be required, absent the election of the fair value option under the [Fair Value Option Subsection](#) of Section 825-10-15, to be accounted for by the equity method by the investing entity
- c. Trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management
- d. Principal owners of the entity and members of their immediate families
- e. Management of the entity and members of their immediate families
- f. Other parties with which the entity may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests
- g. Other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

25 Recognition

General Note: The Recognition Section provides guidance on the required criteria, timing, and location (within the financial statements) for recording a particular item in the financial statements. Disclosure is not recognition.

General Note for Fair Value Option: Some of the items subject to the guidance in this Subtopic may qualify for application of the Fair Value Option Subsections of Subtopic [825-10](#). Those Subsections (see paragraph [825-10-05-5](#)) address circumstances in which entities may choose, at specified election dates, to measure eligible items at fair value (the fair value option). See Section [825-10-15](#) for guidance on the scope of the Fair Value Option Subsections of the Financial Instruments Topic.

General

- 965-320-25-1** The accrual basis of accounting requires that purchases of securities be recorded on a trade-date basis. However, if the settlement date is later than the financial statement date, accounting on a settlement-date basis for such purchases is acceptable if both of the following conditions exist:
- The [fair value](#) less costs to sell, if significant, of the securities purchased just before the financial statement date does not change significantly from the trade date to the financial statement date.
 - The purchases do not significantly affect the composition of the plan's assets available for benefits.
- 965-320-25-2** See Subtopic [965-325](#) for guidance on accounting for other investments, in particular investment and insurance contracts, of [health and welfare benefit plans](#).

35 Subsequent Measurement

- i General Note:** The Subsequent Measurement Section provides guidance on an entity's subsequent measurement and subsequent recognition of an item. Situations that may result in subsequent changes to carrying amount include impairment, credit losses, fair value adjustments, depreciation and amortization, and so forth.

General

- 965-320-35-1** Plan investments in the form of equity or debt securities shall be reported at their **fair value** less costs to sell, if significant, at the financial statement date.

40 Derecognition

- i General Note:** The Derecognition Section provides guidance on determining whether and when an entity should remove an item from the financial statements. For example, the entity would derecognize an asset because it no longer has rights to the asset or it would derecognize a liability because it no longer has any obligation.

General

- 965-320-40-1** The accrual basis of accounting requires that sales of securities be recorded on a trade-date basis. However, if the settlement date is later than the financial statement date, accounting on a settlement-date basis for such purchases is acceptable if both of the following conditions exist:
- The **fair value** less costs to sell, if significant, of the securities sold just before the financial statement date does not change significantly from the trade date to the financial statement date.
 - The sales do not significantly affect the composition of the plan's assets available for benefits.

50 Disclosure

- i General Note:** The Disclosure Section provides guidance regarding the disclosure in the notes to financial statements. In some cases, disclosure may relate to disclosure on the face of the financial statements.

General

965-320-50-1 Ordinarily, information regarding the net appreciation or depreciation in the [fair value](#) less costs to sell, if significant, of investments shall be disclosed in the notes to financial statements.

05 Overview and Background

General Note: The Overview and Background Section provides overview and background material for the guidance contained in the Subtopic. It does not provide the historical background or due process. It may contain certain material that users generally consider useful to understand the typical situations addressed by the standards. The Section does not summarize the accounting and reporting requirements.

General

- 965-325-05-1** This Subtopic provides guidance on investment and insurance contracts for [health and welfare benefit plans](#).
- 965-325-05-2** [Defined benefit plans](#) provide participants with a determinable benefit based on a formula provided for in the plans, whereas [defined contribution plans](#) provide benefits based on amounts contributed to an employee's individual account plus or minus all of the following:
- Forfeitures
 - Investment experience
 - Administrative expenses.
- 965-325-05-3** In such defined contribution plans, plan participants have a vested interest in monitoring the financial condition and operations of the plan since they bear investment risk under these plans, and plan transactions can directly affect their benefits (for example, investment mix, and risk and return).
- 965-325-05-4** The Internal Revenue Code generally requires that all investment experience under defined contribution plans be allocated to individual account balances.

10 Objectives

General Note: The Objectives Section provides the high-level objectives that the Subtopic is intended to accomplish or attain. The Section does not summarize or discuss the main principles of accounting and reporting requirements.

General

- 965-325-10-1** Plan assets of [health and welfare benefit plans](#) shall be measured and reported at values that are meaningful to financial statement users, including plan participants.

15 Scope and Scope Exceptions

i General Note: The Scope and Scope Exceptions Section outlines the items (for example, the entities, transactions, instruments, or events) to which the guidance in the Subtopic does or does not apply. In some cases, the Section may contain definitional or other text to frame the scope.

i General Note for Financial Instruments: Some of the items subject to the guidance in this Subtopic are [financial instruments](#). For guidance on matters related broadly to all financial instruments, (including the fair value option, accounting for registration payment arrangements, and broad financial instrument disclosure requirements), see Topic [825](#). See Section [825-10-15](#) for guidance on the scope of the Financial Instruments Topic.

General

> Overall Guidance

965-325-15-1 This Subtopic follows the same Scope and Scope Exceptions as outlined in the Overall Subtopic, see Section [965-10-15](#).

20 Glossary

i General Note: The Master Glossary contains all terms identified as glossary terms throughout the Codification. Clicking on any term in the Master Glossary will display where the term is used. The Master Glossary may contain identical terms with different definitions, some of which may not be appropriate for a particular Subtopic. For any particular Subtopic, users should only use the glossary terms included in the particular Subtopic Glossary Section (Section 20).

Benefits

The monetary or in-kind benefits or benefit coverage to which participants may be entitled under a pension plan or a health and welfare plan (which can include active, terminated, and retired employees

or their dependents or beneficiaries). Examples of benefits may include, but are not limited to, health care benefits, life insurance, legal, educational, and advisory services, pension benefits, disability benefits, death benefits, and benefits due to termination of employment.

Contract Value of a Fully Benefit-Responsive Investment Contract

The contract value of a fully benefit-responsive investment contract held by a defined contribution health and welfare benefit plan is the amount a participant would receive if he or she were to initiate transactions under the terms of the ongoing plan.

Defined Benefit Plan

A defined benefit plan provides participants with a determinable benefit based on a formula provided for in the plan.

- a. Defined benefit health and welfare plans—Defined benefit health and welfare plans specify a determinable benefit, which may be in the form of a reimbursement to the covered plan participant or a direct payment to providers or third-party insurers for the cost of specified services. Such plans may also include benefits that are payable as a lump sum, such as death benefits. The level of benefits may be defined or limited based on factors such as age, years of service, and salary. Contributions may be determined by the plan's actuary or be based on premiums, actual claims paid, hours worked, or other factors determined by the plan sponsor. Even when a plan is funded pursuant to agreements that specify a fixed rate of employer contributions (for example, a collectively bargained multiemployer plan), such a plan may nevertheless be a defined benefit health and welfare plan if its substance is to provide a defined benefit.
- b. Defined benefit pension plan—A pension plan that defines an amount of pension benefit to be provided, usually as a function of one or more factors such as age, years of service, or compensation. Any pension plan that is not a [defined contribution](#) pension plan is, for purposes of Subtopic [715-30](#), a defined benefit pension plan.
- c. Defined benefit postretirement plan—A plan that defines postretirement benefits in terms of monetary amounts (for example, \$100,000 of life insurance) or benefit coverage to be provided (for example, up to \$200 per day for hospitalization, or 80 percent of the cost of specified surgical procedures). Any postretirement benefit plan that is not a defined contribution postretirement plan is, for purposes of Subtopic [715-60](#), a defined benefit postretirement plan. (Specified monetary amounts and benefit coverage are collectively referred to as benefits.)

Defined Contribution Plan

A plan that provides an individual account for each participant and provides benefits that are based on all of the following: amounts contributed to the participant's account by the employer or employee; investment experience; and any forfeitures allocated to the account, less any administrative expenses charged to the plan.

- a. Defined contribution health and welfare plans—Defined contribution health and welfare plans maintain an individual account for each plan participant. They have terms that specify the means of determining the contributions to participants' accounts, rather than the amount of benefits the participants are to receive. The benefits a plan participant will receive are limited to the amount contributed to the participant's account, investment experience, expenses, and any forfeitures allocated to the participant's account. These plans also include flexible spending arrangements.
- b. Defined contribution postretirement plan—A plan that provides postretirement benefits in return for services rendered, provides an individual account for each plan participant, and specifies how contributions to the individual's account are to be determined rather than specifies the amount of benefits the individual is to receive. Under a defined contribution postretirement plan, the benefits a plan participant will receive depend solely on the amount contributed to the plan participant's account, the returns earned on investments of those contributions, and the

forfeitures of other plan participants' benefits that may be allocated to that plan participant's account.

Fair Value

The price that would be received to sell an asset or paid to transfer a liability in an [orderly transaction](#) between [market participants](#) at the measurement date.

Fully Benefit-Responsive Investment Contract

An investment contract is considered fully benefit-responsive if all of the following criteria are met for that contract, analyzed on an individual basis:

- a. The investment contract is effected directly between the plan and the issuer and prohibits the plan from assigning or selling the contract or its proceeds to another party without the consent of the issuer.
- b. Either of the following conditions exists:
 1. The repayment of principal and interest credited to participants in the plan is a financial obligation of the issuer of the investment contract.
 2. Prospective interest crediting rate adjustments are provided to participants in the plan on a designated pool of investments held by the plan or the contract issuer, whereby a financially responsible third party, through a contract generally referred to as a wrapper, must provide assurance that the adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero.

If an event has occurred such that realization of full contract value for a particular investment contract is no longer probable (for example, a significant decline in creditworthiness of the contract issuer or wrapper provider), the investment contract shall no longer be considered fully benefit-responsive.

- c. The terms of the investment contract require all permitted participant-initiated transactions with the plan to occur at contract value with no conditions, limits, or restrictions. Permitted participant-initiated transactions are those transactions allowed by the plan, such as any of the following:
 1. Withdrawals for benefits
 2. Loans
 3. Transfers to other funds within the plan.
- d. An event that limits the ability of the plan to transact at contract value with the issuer and that also limits the ability of the plan to transact at contract value with the participants in the plan, such as any of the following, must be probable of not occurring:
 1. Premature termination of the contracts by the plan
 2. Plant closings
 3. Layoffs
 4. Plan termination
 5. Bankruptcy
 6. Mergers
 7. Early retirement incentives.
- e. The plan itself must allow participants reasonable access to their funds.

If access to funds is substantially restricted by plan provisions, investment contracts held by those plans may not be considered to be fully benefit-responsive. For example, if plan participants are allowed access at contract value to all or a portion of their account balances only upon termination of

their participation in the plan, it would not be considered reasonable access and, therefore, investment contracts held by that plan would generally not be deemed to be fully benefit-responsive. However, in plans with a single investment fund that allow reasonable access to assets by inactive participants, restrictions on access to assets by active participants consistent with the objective of the plan (for example, retirement or health and welfare benefits) will not affect the benefit responsiveness of the investment contracts held by those single-fund plans. Also, if a plan limits participants' access to their account balances to certain specified times during the plan year (for example, semiannually or quarterly) to control the administrative costs of the plan, that limitation generally would not affect the benefit responsiveness of the investment contracts held by that plan. In addition, administrative provisions that place short-term restrictions (for example, three or six months) on transfers to competing fixed-rate investment options to limit arbitrage among those investment options (equity wash provisions) would not affect a contract's benefit responsiveness.

Health and Welfare Benefit Plans

Health and welfare benefit plans include plans that provide the following:

- a. Any of the following benefits:
 1. Medical, dental, visual, psychiatric, or long-term health care
 2. Life insurance (offered separately from a pension plan)
 3. Certain severance benefits
 4. Accidental death or dismemberment benefits.
- b. Benefits for unemployment, disability, vacations, or holidays
- c. Other benefits such as apprenticeships, tuition assistance, day care, dependent care, housing subsidies, or legal services.

Market Participants

Buyers and sellers in the principal (or most advantageous) market for the asset or liability that have all of the following characteristics:

- a. They are independent of each other, that is, they are not **related parties**, although the price in a related-party transaction may be used as an input to a fair value measurement if the reporting entity has evidence that the transaction was entered into at market terms
- b. They are knowledgeable, having a reasonable understanding about the asset or liability and the transaction using all available information, including information that might be obtained through due diligence efforts that are usual and customary
- c. They are able to enter into a transaction for the asset or liability
- d. They are willing to enter into a transaction for the asset or liability, that is, they are motivated but not forced or otherwise compelled to do so.

Net Assets Available for Benefits

The difference between a plan's assets and its liabilities. For purposes of this definition, a plan's liabilities do not include participants' accumulated plan benefits.

Orderly Transaction

A transaction that assumes exposure to the market for a period before the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets or liabilities; it is not a forced transaction (for example, a forced liquidation or distress sale).

Plan Assets

Assets—usually stocks, bonds, and other investments (except certain insurance contracts as noted in paragraph [715-60-35-109](#))—that have been segregated and restricted (usually in a trust) to be used for a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). The amount of plan assets includes amounts contributed by the employer, and by plan participants for a contributory plan, and amounts earned from investing the contributions, less benefits, income taxes, and other expenses incurred. Plan assets ordinarily cannot be withdrawn by the employer except under certain circumstances when a plan has assets in excess of obligations and the employer has taken certain steps to satisfy existing obligations. Securities of the employer held by the plan are includable in plan assets provided they are transferable. Assets not segregated in a trust, or otherwise effectively restricted, so that they cannot be used by the employer for other purposes are not plan assets, even though the employer may intend that those assets be used to provide health and welfare benefits, which may include postretirement benefits. Those assets shall be accounted for in the same manner as other employer assets of a similar nature and with similar restrictions. If a plan has liabilities other than for benefits, those nonbenefit obligations are considered as reductions of plan assets. Amounts accrued by the employer but not yet paid to the plan are not plan assets. If a trust arrangement explicitly provides that segregated assets are available to satisfy claims of creditors in bankruptcy, such a provision would effectively permit those assets to be used for other purposes at the discretion of the employer. It is not necessary to determine that a trust is bankruptcy-proof for the assets of the trust to qualify as plan assets. However, assets held in a trust that explicitly provides that such assets are available to the general creditors of the employer in the event of the employer's bankruptcy would not qualify as plan assets.

Related Parties

Related parties include:

- a. Affiliates of the entity
- b. Entities for which investments in their equity securities would be required, absent the election of the fair value option under the [Fair Value Option Subsection](#) of Section 825-10-15, to be accounted for by the equity method by the investing entity
- c. Trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management
- d. Principal owners of the entity and members of their immediate families
- e. Management of the entity and members of their immediate families
- f. Other parties with which the entity may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests
- g. Other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

35 Subsequent Measurement

General Note: The Subsequent Measurement Section provides guidance on an entity's subsequent measurement and subsequent recognition of an item. Situations that may result in subsequent changes to

carrying amount include impairment, credit losses, fair value adjustments, depreciation and amortization, and so forth.

General

 [Related Proposed ASUs](#)

> Reporting at Fair Value

- 965-325-35-1** Plan investments, whether they are in the form of equity or debt securities, real estate, or other investments (excluding insurance contracts and [fully benefit-responsive investment contracts](#) [see paragraph [965-325-35-3](#) for special provisions on the valuation of insurance contracts and paragraph [965-325-35-8](#) for special provisions on the valuation of fully benefit-responsive investment contracts]), shall be reported at their [fair value](#) less costs to sell, if significant, at the financial statement date.
- 965-325-35-1A** If significant, the fair value of an investment shall be reduced by brokerage commissions and other costs normally incurred in a sale.
- 965-325-35-2** Investment contracts held by defined benefit [health and welfare benefit plans](#) shall be reported at their fair values.
- 965-325-35-2A** If a plan's fiscal year-end does not coincide with a month-end, the plan may measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) using the month-end that is closest to the plan's fiscal year-end. That election shall be applied consistently from year to year.

> Insurance Contracts

- 965-325-35-3** Insurance contracts, as defined by Subtopic [944-20](#), shall be presented in the same manner as specified in the annual report filed by the plan with certain governmental agencies pursuant to the Employee Retirement Income Security Act; that is, either at fair value or at amounts determined by the insurance entity (contract value). Plans not subject to the Employee Retirement Income Security Act shall present insurance contracts as if the plans were subject to the reporting requirements of the Act.
- 965-325-35-4** See paragraphs [944-20-05-5 through 05-7](#) for a discussion of the purpose, types, and a general characterization of insurance transactions.
- 965-325-35-5** See paragraphs [944-20-15-16 through 15-19](#) for a discussion of certain types of insurance contracts, including long-duration contracts that do not subject the insurance entities to mortality or morbidity risks (investment contracts) and annuity contracts.

> Investment Contracts

· > Evaluation of Benefit Responsiveness

- 965-325-35-6** If a plan holds multiple contracts, each contract shall be evaluated individually for benefit responsiveness. Contracts that provide for prospective interest adjustments may still be fully benefit-

responsive provided that the terms of the contracts specify that the crediting interest rate cannot be less than zero.

· > Application of Benefit Responsiveness

- 965-325-35-7** Section [965-325-55](#) includes implementation guidance for the application of the definition of fully benefit-responsive for defined contribution health and welfare plan investments.
- 965-325-35-8** Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution health and welfare benefit plan attributable to fully benefit-responsive investment contracts.
- 965-325-35-9** [Paragraph superseded by Accounting Standards Update No. 2015-12](#) (Part I).

45 Other Presentation Matters

General Note: The Other Presentation Matters Section provides guidance on other presentation matters not addressed in the Recognition, Initial Measurement, Subsequent Measurement, and Derecognition Sections. Other presentation matters may include items such as current or long-term balance sheet classification, cash flow presentation, earnings per share matters, and so forth. The FASB Codification also contains Presentation Topics, which provide guidance for general presentation and display items. See those Topics for general guidance.

General

- 965-325-45-1** Information regarding a plan's investments shall be presented in enough detail to identify the types of investments and shall indicate whether reported fair values have been measured by quoted prices in an active market or have been determined otherwise (paragraph [965-325-50-2](#) specifies additional disclosures related to investments).
- 965-325-45-2** Investments measured using fair value in the statement of net assets available for benefits or in the notes shall be presented by general type, including the following:
- Registered investment companies (also known as mutual funds)
 - Government securities
 - Short-term securities
 - Corporate bonds
 - Common stocks
 - Mortgages
 - [Subparagraph superseded by Accounting Standards Update No. 2012-04.](#)
 - Real estate.

For the presentation of [fully benefit-responsive investment contracts](#), which are measured at contract value, see paragraphs [965-325-35-8](#) and [965-325-50-2](#).

50 Disclosure

General Note: The Disclosure Section provides guidance regarding the disclosure in the notes to financial statements. In some cases, disclosure may relate to disclosure on the face of the financial statements.

General

[Related Proposed ASUs](#)

965-325-50-1 Disclosure of a [health and welfare benefit plan's](#) accounting policies shall include a description of the valuation techniques and inputs used to measure the [fair value](#) less costs to sell, if significant, of investments (as required by Section [820-10-50](#)) and a description of the methods and significant assumptions used to measure the reported value of insurance contracts. However, health and welfare benefit plans are exempt from the requirements in paragraph [820-10-50-2B\(a\)](#) to disaggregate assets by nature, characteristics, and risks. The disclosures of information by classes of assets required by Section [820-10-50](#) shall be provided by general type of plan assets consistent with paragraph [965-325-45-2](#).

965-325-50-1A [Paragraph superseded by Accounting Standards Update No. 2015-12](#) (Part II).

965-325-50-1B If applicable, a plan shall disclose the accounting policy election to measure investments and investment-related accounts using the month-end that is closest to the plan's fiscal year-end in accordance with paragraph [965-325-35-2A](#) and the month-end measurement date.

965-325-50-1C If a plan measures investments and investment-related accounts in accordance with paragraph [965-325-35-2A](#) and contributions, distributions, and/or significant events (such as a plan amendment, a merger, or a termination) occur between the month-end date used to measure investments and investment-related accounts and the plan's fiscal year-end, the plan shall disclose the amounts of those contributions, distributions, and/or significant events.

> Fully Benefit-Responsive Investment Contracts

965-325-50-2 Health and welfare plans shall disclose the following in connection with [fully benefit-responsive investment contracts](#), in the aggregate:

- a. A description of the nature of those investment contracts (including how they operate) by the type of investment contract (for example, synthetic investment contracts or traditional investment contracts).
 1. [Subparagraph superseded by Accounting Standards Update No. 2015-12](#). (Part I).
 2. [Subparagraph superseded by Accounting Standards Update No. 2015-12](#). (Part I).
 3. [Subparagraph superseded by Accounting Standards Update No. 2015-12](#). (Part I).
- b. [Subparagraph superseded by Accounting Standards Update No. 2015-12](#). (Part I).

- c. [Subparagraph superseded by Accounting Standards Update No. 2015-12](#). (Part I).
- d. A description of the events that limit the ability of the plan to transact at contract value with the issuer, including a statement that the occurrence of each of those events that would limit the plan's ability to transact at contract value with participants in the plan is not probable of occurring (the term *probable* is used in this Subtopic consistent with its use in Topic [450](#)). Such events might include, among others, all of the following:
 1. Premature termination of the contracts by the plan
 2. Plant closings
 3. Layoffs
 4. Plan termination
 5. Bankruptcy
 6. Mergers
 7. Early retirement incentives.
- e. A description of the events and circumstances that would allow issuers to terminate fully benefit-responsive investment contracts with the plan and settle at an amount different from contract value.
- f. The total contract value of each type of investment contract (for example, synthetic investment contracts or traditional investment contracts).

965-325-50-3 [Paragraph superseded by Accounting Standards Update No. 2015-12](#) (Part I).

> Investments Measured Using the Net Asset Value per Share Practical Expedient

965-325-50-4 If an investment is measured using the net asset value per share (or its equivalent) practical expedient in paragraph [820-10-35-59](#) and that investment is in a fund that files U.S. Department of Labor Form 5500 as a direct filing entity, disclosure of that investment's significant investment strategy, as discussed in paragraph [820-10-50-6A\(a\)](#), is not required.

> Interests in Master Trusts

965-325-50-5 A plan shall disclose the following in the notes to financial statements for each period for which a statement of changes in net assets available for benefits is presented:

- a. Net appreciation or depreciation in the fair value of investments of the master trust. Net appreciation or depreciation includes realized gains and losses on investments that were both purchased and sold during the period as well as unrealized appreciation or depreciation of the investments held at year-end.
- b. Investment income (exclusive of (a)).

965-325-50-6 A plan also shall include in the notes to financial statements both of the following:

- a. Description of the basis used to allocate both of the following:
 1. Net assets
 2. Total investment income. See paragraph [965-325-50-5](#) for the components of total investment income.

- b. For a plan with an undivided interest in the master trust (that is, when the plan has a proportionate, rather than specific, interest in the master trust), its percentage interest in the master trust as of the date of each statement of net assets available for benefits presented.

965-325-50-7 In the notes to financial statements a plan shall include the investments of a master trust measured using fair value presented by general type of investment, such as the following, as of the date of each statement of net assets available for benefits presented:

- a. Registered investment companies (for example, mutual funds)
- b. Government securities
- c. Common-collective trusts
- d. Pooled separate accounts
- e. Short-term securities
- f. Corporate bonds
- g. Common stocks
- h. Mortgages
- i. Real estate.

For the presentation of [fully benefit-responsive investment contracts](#), which are measured at contract value, see paragraphs [965-325-35-8](#) and [965-325-50-2](#).

965-325-50-8 A plan shall disclose the dollar amount of its interest in each general type of investment held by the master trust, consistent with the disclosure required by paragraph [965-325-50-7](#). See paragraph [962-325-55-18](#) for an example of this disclosure.

965-325-50-9 A plan also shall disclose the master trust's other assets and liabilities and the dollar amount of the plan's interest in each of those other assets and liabilities. Examples of those balances include the following:

- a. Amounts due from brokers for securities sold
- b. Amounts due to brokers for securities purchased
- c. Receivables relating to derivatives
- d. Payables relating to derivatives
- e. Accrued interest and dividends
- f. Accrued expenses.

See paragraph [962-325-55-18](#) for an example of this disclosure.

55 Implementation Guidance and Illustrations

i General Note: The Implementation Guidance and Illustrations Section contains implementation guidance and illustrations that are an integral part of the Subtopic. The implementation guidance and illustrations do not address all possible variations. Users must consider carefully the actual facts and circumstances in relation to the requirements of the Subtopic.

General

> Implementation Guidance

- 965-325-55-1** Implementation guidance in Section [962-325-55](#) illustrates the guidance in paragraphs [965-325-35-6 through 35-8](#) for the application of [fair value](#) less costs to sell, if significant, and contract value reporting for health and welfare plan investments. In each situation, value is determined within the context of the objectives of financial statements for a [defined contribution plan](#). The valuation must reflect the ability of the plan to pay benefits from the perspective of the participants. This value is then reflected on participants' statements to disclose the amount they can expect to receive when they exercise their rights to withdraw, borrow, or transfer funds under the terms of the plan.
- 965-325-55-2** See paragraph [962-325-55-3](#) for implementation guidance on a five-year public bond (or portfolio of bonds) that is guaranteed by a third party to have a fixed value at the end of three years.
- 965-325-55-3** See paragraphs [962-325-55-5 through 55-7](#) for implementation guidance on a [fully benefit-responsive investment contract](#).
- 965-325-55-4** See paragraph [962-325-55-8](#) for implementation guidance on a five-year, non-benefit-responsive investment contract that has no liquid market for trading.
- 965-325-55-5** See paragraph [962-325-55-10](#) for implementation guidance on a benefit-responsive participating separate account investment contract.
- 965-325-55-6** See paragraph [962-325-55-12](#) for implementation guidance on a synthetic contract (managed type).
- 965-325-55-7** See paragraph [962-325-55-13](#) for implementation guidance on a synthetic investment contract (repurchase type).

> Illustrations

- 965-325-55-8** See Example 2 (paragraph [962-325-55-17](#)) for financial statements that illustrate certain applications of the provisions of this Subtopic that apply to the annual financial statements of a defined contribution plan.

965 Plan Accounting—Health and Welfare Benefit Plans

360 Property, Plant, and Equipment

00 Status

General Note:The Status Section identifies changes to this Subtopic resulting from Accounting Standards Updates. The Section provides references to the affected Codification content and links to the related Accounting Standards Updates. Nonsubstantive changes for items such as editorial, link and similar corrections are included separately in Maintenance Updates.

General

965-360-00-1	The following table identifies the changes made to this Subtopic.			
	Paragraph	Action	Accounting Standards Update	Date
	Fair Value (2nd def.)	Superseded	Accounting Standards Update No. 2012-04	10/01/2012
	Fair Value	Added	Accounting Standards Update No. 2012-04	10/01/2012
	Plan Assets (1st def.)	Amended	Accounting Standards Update No. 2016-19	12/14/2016
	Plan Assets (1st def.)	Added	Accounting Standards Update No. 2014-06	03/14/2014
	965-360-35-1	Amended	Accounting Standards Update No. 2014-06	03/14/2014
	965-360-35-2	Amended	Accounting Standards Update No. 2012-04	10/01/2012

05 Overview and Background

General Note:The Overview and Background Section provides overview and background material for the guidance contained in the Subtopic. It does not provide the historical background or due process. It may contain certain material that users generally consider useful to understand the typical situations addressed by the standards. The Section does not summarize the accounting and reporting requirements.

General

965-360-05-1 This Subtopic provides guidance on property, plant, and equipment for [health and welfare benefit plans](#).

15 Scope and Scope Exceptions

General Note: The Scope and Scope Exceptions Section outlines the items (for example, the entities, transactions, instruments, or events) to which the guidance in the Subtopic does or does not apply. In some cases, the Section may contain definitional or other text to frame the scope.

General

> Overall Guidance

965-360-15-1 This Subtopic follows the same Scope and Scope Exceptions as outlined in the Overall Subtopic, see Section [965-10-15](#).

20 Glossary

General Note: The Master Glossary contains all terms identified as glossary terms throughout the Codification. Clicking on any term in the Master Glossary will display where the term is used. The Master Glossary may contain identical terms with different definitions, some of which may not be appropriate for a particular Subtopic. For any particular Subtopic, users should only use the glossary terms included in the particular Subtopic Glossary Section (Section 20).

Fair Value

The price that would be received to sell an asset or paid to transfer a liability in an [orderly transaction](#) between [market participants](#) at the measurement date.

Health and Welfare Benefit Plans

Health and welfare benefit plans include plans that provide the following:

- a. Any of the following benefits:
 1. Medical, dental, visual, psychiatric, or long-term health care
 2. Life insurance (offered separately from a pension plan)
 3. Certain severance benefits
 4. Accidental death or dismemberment benefits.
- b. Benefits for unemployment, disability, vacations, or holidays

- c. Other benefits such as apprenticeships, tuition assistance, day care, dependent care, housing subsidies, or legal services.

Market Participants

Buyers and sellers in the principal (or most advantageous) market for the asset or liability that have all of the following characteristics:

- a. They are independent of each other, that is, they are not [related parties](#), although the price in a related-party transaction may be used as an input to a fair value measurement if the reporting entity has evidence that the transaction was entered into at market terms
- b. They are knowledgeable, having a reasonable understanding about the asset or liability and the transaction using all available information, including information that might be obtained through due diligence efforts that are usual and customary
- c. They are able to enter into a transaction for the asset or liability
- d. They are willing to enter into a transaction for the asset or liability, that is, they are motivated but not forced or otherwise compelled to do so.

Orderly Transaction

A transaction that assumes exposure to the market for a period before the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets or liabilities; it is not a forced transaction (for example, a forced liquidation or distress sale).

Plan Assets

Assets—usually stocks, bonds, and other investments (except certain insurance contracts as noted in paragraph [715-60-35-109](#))—that have been segregated and restricted (usually in a trust) to be used for a health and welfare plan (which can include active, terminated, and retired employees or their dependents or beneficiaries). The amount of plan assets includes amounts contributed by the employer, and by plan participants for a contributory plan, and amounts earned from investing the contributions, less benefits, income taxes, and other expenses incurred. Plan assets ordinarily cannot be withdrawn by the employer except under certain circumstances when a plan has assets in excess of obligations and the employer has taken certain steps to satisfy existing obligations. Securities of the employer held by the plan are includable in plan assets provided they are transferable.

Assets not segregated in a trust, or otherwise effectively restricted, so that they cannot be used by the employer for other purposes are not plan assets, even though the employer may intend that those assets be used to provide health and welfare benefits, which may include postretirement benefits. Those assets shall be accounted for in the same manner as other employer assets of a similar nature and with similar restrictions. If a plan has liabilities other than for benefits, those nonbenefit obligations are considered as reductions of plan assets. Amounts accrued by the employer but not yet paid to the plan are not plan assets. If a trust arrangement explicitly provides that segregated assets are available to satisfy claims of creditors in bankruptcy, such a provision would effectively permit those assets to be used for other purposes at the discretion of the employer. It is not necessary to determine that a trust is bankruptcy-proof for the assets of the trust to qualify as plan assets. However, assets held in a trust that explicitly provides that such assets are available to the general creditors of the employer in the event of the employer's bankruptcy would not qualify as plan assets.

Related Parties

Related parties include:

- a. Affiliates of the entity
- b. Entities for which investments in their equity securities would be required, absent the election of the fair value option under the [Fair Value Option Subsection](#) of Section 825-10-15, to be

accounted for by the equity method by the investing entity

c. Trusts for the benefit of employees, such as pension and profit-sharing trusts that are managed by or under the trusteeship of management

d. Principal owners of the entity and members of their immediate families

e. Management of the entity and members of their immediate families

f. Other parties with which the entity may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests

g. Other parties that can significantly influence the management or operating policies of the transacting parties or that have an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests.

35 Subsequent Measurement

General Note: The Subsequent Measurement Section provides guidance on an entity's subsequent measurement and subsequent recognition of an item. Situations that may result in subsequent changes to carrying amount include impairment, credit losses, fair value adjustments, depreciation and amortization, and so forth.

General

965-360-35-1 [Plan assets](#) used in plan operations shall be reported at cost less accumulated depreciation or amortization and may consist of any of the following:

- a. Buildings
- b. Equipment
- c. Furniture and fixtures
- d. Leasehold improvements.

965-360-35-2 Plan investments in the form of real estate or other investments (excluding insurance contracts), shall be reported at their [fair value](#) less costs to sell, if significant, at the financial statement date.

965-360-35-3 See Subtopic [965-325](#) for guidance on accounting for other investments, in particular investment and insurance contracts, of [health and welfare benefit plans](#).
