Gain Contingency

[Glossary Term Usage](#) | See Topic(s): [450](#)

An existing condition, situation, or set of circumstances involving uncertainty as to possible gain to an entity that will ultimately be resolved when one or more future events occur or fail to occur.

Gain or Loss

[Glossary Term Usage](#) | See Topic(s): [715](#)

A change in the value of either the benefit obligation (projected benefit obligation for pension plans or accumulated postretirement benefit obligation for other postretirement benefit plans) or the plan assets resulting from experience different from that assumed or from a change in an actuarial assumption, or the consequence of a decision to temporarily deviate from the other postretirement benefit substantive plan. Gains or losses that are not recognized in net periodic pension cost or net periodic postretirement benefit cost when they arise are recognized in other comprehensive income. Those gains or losses are subsequently recognized as a component of net periodic pension cost or net periodic postretirement benefit cost based on the recognition and amortization provisions of Subtopic [715-30](#) or Subtopic [715-60](#).

Gain or Loss (Component of Net Periodic Pension Cost)

[Glossary Term Usage](#) | See Topic(s): [715](#)

The sum of the difference between the actual return on plan assets and the expected return on plan assets and the amortization of the net gain or loss recognized in accumulated other comprehensive income. The gain or loss component is the net effect of delayed recognition of gains and losses in determining net periodic pension cost (the net change in the gain or loss) in accumulated other comprehensive income except that it does not include changes in the projected benefit obligation occurring during the period and deferred for later recognition in net periodic pension cost.

Gain or Loss (Component of Net Periodic Postretirement Benefit Cost)

[Glossary Term Usage](#) | See Topic(s): [715](#)

The sum of all of the following:

- a. The difference between the actual return on plan assets and the expected return on plan assets
- b. Any gain or loss immediately recognized or the amortization of the net gain or loss recognized in accumulated other comprehensive income
- c. Any amount immediately recognized as a gain or loss pursuant to a decision to temporarily deviate from the substantive plan.

The gain or loss component is generally the net effect of delayed recognition in determining net periodic postretirement benefit cost of gains and losses (the net change in the net gain or loss recognized in accumulated other comprehensive income) except that it does not include changes in the accumulated postretirement benefit obligation occurring during the period and deferred for later recognition in net periodic postretirement benefit cost.

Gains and Losses Included in Comprehensive Income but Excluded from Net Income

[Glossary Term Usage](#) | See Topic(s): [740](#)

Grant Date

[Glossary Term Usage](#) | See Topic(s): [606](#) , [718](#)

The date at which a grantor and a grantee reach a mutual understanding of the key terms and conditions of a share-based payment award. The grantor becomes contingently obligated on the grant date to issue equity

instruments or transfer assets to a grantee who delivers goods or renders services or purchases goods or services as a customer. Awards made under an arrangement that is subject to shareholder approval are not deemed to be granted until that approval is obtained unless approval is essentially a formality (or perfunctory), for example, if management and the members of the board of directors control enough votes to approve the arrangement. Similarly, individual awards that are subject to approval by the board of directors, management, or both are not deemed to be granted until all such approvals are obtained. The grant date for an award of equity instruments is the date that a grantee begins to benefit from, or be adversely affected by, subsequent changes in the price of the grantor's equity shares. Paragraph [718-10-25-5](#) provides guidance on determining the grant date. See [Service Inception Date](#).
