Unallocated Contract

[Glossary Term Usage](#) | See Topic(s): [960](#)

A contract with an insurance entity under which payments to the insurance entity are accumulated in an unallocated fund (not allocated to specific plan participants) to be used either directly or through the purchase of annuities, to meet benefit payments when employees retire. Funds held by the insurance entity under an unallocated contract may be withdrawn and otherwise invested.

Uncollectibility

[Glossary Term Usage](#) | See Topic(s): [978](#)

A situation in which, as a result of credit issues, the time-share seller is unable to collect all amounts due (both principal and interest) according to the contractual terms of a note receivable from a buyer, or a time-share receivable has not been written off but facts and circumstances indicate that it is probable that the seller will not collect all contractual payments. Any sale that, as a result of credit issues, is cancelled or modified subsequent to being recorded as a sale is considered uncollectible. For purposes of this definition, probable is defined in paragraph [450-20-25-1](#) as "likely to occur".

Uncommitted Loans

[Glossary Term Usage](#) | See Topic(s): [948](#)

A mortgage loan that does not meet the specific terms of a commitment or for which a reasonable doubt exists about the acceptance of the loan under a commitment.

Underlying

[Glossary Term Usage](#) | See Topic(s): [460](#) , [810](#) , [815](#) , [946](#)

A specified interest rate, security price, commodity price, foreign exchange rate, index of prices or rates, or other variable (including the occurrence or nonoccurrence of a specified event such as a scheduled payment under a contract). An underlying may be a price or rate of an asset or liability but is not the asset or liability itself. An underlying is a variable that, along with either a notional amount or a payment provision, determines the settlement of a derivative instrument.

Underlying Asset

[Glossary Term Usage](#) | See Topic(s): [210](#) , [220](#) , [230](#) , [255](#) , [310](#) , [326](#) , [360](#) , [410](#) , [440](#) , [450](#) , [460](#) , [740](#) , [805](#) , [810](#) , [815](#) , [835](#) , [842](#) , [860](#) , [958](#) , [970](#)

An asset that is the subject of a [lease](#) for which a right to use that asset has been conveyed to a [lessee](#). The underlying asset could be a physically distinct portion of a single asset.

[Glossary Term Usage](#) | See Topic(s): [958](#)

A [donor-restricted endowment fund](#) for which the fair value of the fund at the reporting date is less than either the original gift amount or the amount required to be maintained by the donor or by law that extends donor restrictions.

Underwriting Risk

[Glossary Term Usage](#) | See Topic(s): [220](#) , [340](#) , [944](#)

The risk arising from uncertainties about the ultimate amount of net cash flows from premiums, commissions, claims, and claim settlement expenses paid under a contract.

Undeveloped Oil and Gas Reserves

SEC Definition | [Glossary Term Usage](#) | See Topic(s): [932](#)

Undivided Interest

[Glossary Term Usage](#) | See Topic(s): [970](#)

The accumulated postretirement benefit obligation in excess of the fair value of plan assets.

Unfunded Projected Benefit Obligation

[Glossary Term Usage](#) | See Topic(s): [715](#)

The excess of the projected benefit obligation over plan assets.

Unguaranteed Residual Asset

[Glossary Term Usage](#) | See Topic(s): [255](#) , [805](#) , [842](#) , [860](#)

The amount that a [lessor](#) expects to derive from the [underlying asset](#) following the end of the [lease term](#) that is not guaranteed by the [lessee](#) or any other third party unrelated to the lessor, measured on a discounted basis.

Unguaranteed Residual Value

[Glossary Term Usage](#) | See Topic(s): [255](#)

The [estimated residual value](#) of the leased property exclusive of any portion guaranteed by the lessee or by a third party unrelated to the lessor. A guarantee by a third party related to the lessee shall be considered a lessee guarantee. If the guarantor is related to the lessor, the residual value shall be considered as unguaranteed.

Unilateral Ability

[Glossary Term Usage](#) | See Topic(s): [860](#)

A capacity for action not dependent on the actions (or failure to act) of any other party.

Unilateral Administrative Order

[Glossary Term Usage](#) | See Topic(s): [410](#)

Order issued unilaterally by the Environmental Protection Agency under section 106(a) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 to potentially responsible parties, or to nonpotentially responsible parties such as adjacent landowners, requiring them to take a response action. Unilateral administrative orders contain findings of fact and conclusions of law, and they specify the work to be performed and the Environmental Protection Agency's right to take over the work in the event of noncompliance, inadequate performance, or an emergency. A unilateral administrative order does not allocate conduct required by the order between individual potentially responsible parties; however, the Environmental Protection Agency may issue carve-out orders requiring individual potentially responsible parties to perform specific actions. Also referred to as a section 106 order.

Unit of Account

[Glossary Term Usage](#) | See Topic(s): [820](#)

The level at which an asset or a liability is aggregated or disaggregated in a Topic for recognition purposes.

Unit of Measure

[Glossary Term Usage](#) | See Topic(s):

The currency in which assets, liabilities, revenues, expenses, gains, and losses are measured.

Unit-Price Contracts

[Glossary Term Usage](#) | See Topic(s): [605](#) , [910](#)

Contracts under which the contractor is paid a specified amount for every unit of work performed. A unit-price contract is essentially a fixed-price contract with the only variable being units of work performed. Variations in unit-price contracts include the same type of variations as fixed-price contracts. A unit-price contract is normally awarded on the basis of a total price that is the sum of the product of the specified units and unit prices. The method of determining total contract price may give rise to unbalanced unit prices because units to be delivered early in the contract may be assigned higher unit prices than those to be delivered as the work under the contract progresses.

Unitized

[Glossary Term Usage](#) | See Topic(s): [946](#)

See [Nonregistered Investment Partnerships—Financial Highlights](#).

Units-of-Revenue Method

[Glossary Term Usage](#) | See Topic(s): [470](#)

A method of amortizing deferred revenue that arises under certain sales of future revenues. Under this method, amortization for a period is calculated by computing a ratio of the proceeds received from the investor to the total payments expected to be made to the investor over the term of the agreement, and then applying that ratio to the period's cash payment.

Unknown Potentially Responsible Party

[Glossary Term Usage](#) | See Topic(s): [410](#)

A party that has liability with respect to a Superfund site, but that has not yet been identified as a [potentially responsible party](#) by the Environmental Protection Agency or by an analogous state agency.

Unobservable Inputs

Inputs for which market data are not available and that are developed using the best information available about the assumptions that market participants would use when pricing the asset or liability.

Unproved Properties

[Glossary Term Usage](#) | See Topic(s): [932](#)

Unproved properties are properties with no proved reserves.

Unproven Potentially Responsible Party

[Glossary Term Usage](#) | See Topic(s): [410](#)

A party that has been identified as a potentially responsible party for a Superfund site by the U.S. Environmental Protection Agency or by an analogous state agency, but that does not acknowledge potential involvement with respect to the site because no evidence has been presented linking the party to the site. Also referred to as a hiding-in-the-weeds potentially responsible party.

Unrecognized Tax Benefit

[Glossary Term Usage](#) | See Topic(s): [740](#)

The difference between a tax position taken or expected to be taken in a tax return and the benefit recognized and measured pursuant to Subtopic [740-10](#).

Unsecured Claim

[Glossary Term Usage](#) | See Topic(s): [852](#)

A liability that is not secured by collateral. In the case of an undersecured creditor, the excess of the [secured claim](#) over the value of the collateral is an unsecured claim, unless the debtor elects in a [Chapter 11](#) proceeding to have the entire [claim](#) considered secured. The term is generally used in bankruptcy to refer to unsecured claims that do not receive priority under the [Bankruptcy Code](#). Sometimes referred to as an unsecured claim liability.

Unsystematic Risk

[Glossary Term Usage](#) | See Topic(s): [820](#)

The risk specific to a particular asset or liability. Also referred to as diversifiable risk.

Unusual Nature

[Glossary Term Usage](#) | See Topic(s): [220](#) , [740](#)

Upgrade

[Glossary Term Usage](#) | See Topic(s): [978](#)
