Value Beyond Proven and Probable Reserves

[Glossary Term Usage](#) | See Topic(s): [930](#)

Value beyond proven and probable reserves is the economic value that exists in a mining asset beyond the value attributable to proven and probable reserves. The distinction between the categories of reserves relates to the level of geological evidence and, therefore, confidence in the reserve estimates.

Value in Use

[Glossary Term Usage](#) | See Topic(s): [255](#)

The amount determined by discounting the future cash flows (including the ultimate proceeds of disposal) expected to be derived from the use of an asset at an appropriate rate that allows for the risk of the activities concerned.

Variable Annuity Contract

[Glossary Term Usage](#) | See Topic(s): [944](#)

An annuity in which the amount of payments to be made are specified in units, rather than in dollars. When payment is due, the amount is determined based on the value of the investments in the annuity fund.

Variable Interest Entity

A [legal entity](#) subject to consolidation according to the provisions of the Variable Interest Entities Subsections of Subtopic [810-10](#).

Variable Interests

[Glossary Term Usage](#) | See Topic(s): [610](#) , [810](#)

The investments or other interests that will absorb portions of a variable interest entity's (VIE's) expected losses or receive portions of the entity's expected residual returns are called variable interests. Variable interests in a VIE are contractual, ownership, or other pecuniary interests in a VIE that change with changes in the fair value of the VIE's net assets exclusive of variable interests. Equity interests with or without voting rights are considered variable interests if the legal entity is a VIE and to the extent that the investment is at risk as described in paragraph [810-10-15-14](#). Paragraph [810-10-25-55](#) explains how to determine whether a variable interest in specified assets of a legal entity is a variable interest in the entity. Paragraphs [810-10-55-16 through 55-41](#) describe various types of variable interests and explain in general how they may affect the determination of the primary beneficiary of a VIE.

Variable Lease Payments

[Glossary Term Usage](#) | See Topic(s): [410](#) , [450](#) , [460](#) , [815](#) , [842](#)

Payments made by a [lessee](#) to a [lessor](#) for the right to use an [underlying asset](#) that vary because of changes in facts or circumstances occurring after the [commencement date](#), other than the passage of time.

Variable-Rate Forward Contracts

[Glossary Term Usage](#) | See Topic(s): [480](#)

Variable-rate forward contracts are commonly used to effect equity forward transactions. The contract price on those forward contracts is not fixed at inception but varies based on changes in a specified index (for example, three-month U.S. London Interbank Offered Rate [LIBOR]) during the life of the contract.

Variance Power

[Glossary Term Usage](#) | See Topic(s): [958](#)

The unilateral power to redirect the use of the transferred assets to another beneficiary. A donor explicitly grants variance power if the recipient entity's unilateral power to redirect the use of the assets is explicitly referred to in the instrument transferring the assets. Unilateral power means that the recipient entity can override the donor's instructions without approval from the donor, specified beneficiary, or any other interested party.

A service provider or product seller, such as a manufacturer, distributor, or reseller.

Vest

[Glossary Term Usage](#) | See Topic(s): [718](#)

To earn the rights to. A share-based payment award becomes vested at the date that the grantee's right to receive or retain shares, other instruments, or cash under the award is no longer contingent on satisfaction of either a service condition or a performance condition. Market conditions are not vesting conditions.

The stated vesting provisions of an award often establish the employee's requisite service period or the nonemployee's vesting period, and an award that has reached the end of the applicable period is vested. However, as indicated in the definition of requisite service period and equally applicable to a nonemployee's vesting period, the stated vesting period may differ from those periods in certain circumstances. Thus, the more precise terms would be options, shares, or awards for which the requisite good has been delivered or service has been rendered and the end of the employee's requisite service period or the nonemployee's vesting period.

Vested Benefit Information

[Glossary Term Usage](#) | See Topic(s): [960](#)

Vested Benefits

[Glossary Term Usage](#) | See Topic(s): [715](#) , [960](#)

Benefits for which the employee's right to receive a present or future pension benefit is no longer contingent on remaining in the service of the employer. (Other conditions, such as inadequacy of the [pension fund](#), may prevent the employee from receiving the vested benefit.) Under graded vesting, the initial vested right may be to receive in the future a stated percentage of a pension based on the number of years of accumulated credited service; thereafter, the percentage may increase with the number of years of service or of age until the right to receive the entire benefit has vested.

Violation of a Provision

[Glossary Term Usage](#) | See Topic(s): [470](#)

Volatility

[Glossary Term Usage](#) | See Topic(s): [718](#)

A measure of the amount by which a financial variable such as a share price has fluctuated (historical volatility) or is expected to fluctuate (expected volatility) during a period. Volatility also may be defined as a probability-weighted measure of the dispersion of returns about the mean. The volatility of a share price is the standard deviation of the continuously compounded rates of return on the share over a specified period. That is the same as the standard deviation of the differences in the natural logarithms of the stock prices plus dividends, if any, over the period. The higher the volatility, the more the returns on the shares can be expected to vary—up or down. Volatility is typically expressed in annualized terms.

Voluntary Health and Welfare Entity

[Glossary Term Usage](#) | See Topic(s): [958](#)

A not-for-profit entity (NFP) that is formed for the purpose of performing voluntary services for various segments of society and that is tax exempt (organized for the benefit of the public), supported by the public, and operated on a not-for-profit basis. Most voluntary health and welfare entities concentrate their efforts and expend their resources in an attempt to solve health and welfare problems of our society and, in many cases, those of specific individuals. As a group, voluntary health and welfare entities include those NFPs that derive their revenue primarily from voluntary contributions from the general public to be used for general or specific purposes connected with health, welfare, or community services. For purposes of this definition, the general public excludes governmental entities when determining whether an NFP is a voluntary health and welfare entity.
